

## ERRATUM

### *Solving Horn Clauses on Inductive Data Types Without Induction – ERRATUM*

EMANUELE DE ANGELIS, FABIO FIORAVANTI, ALBERTO PETTOROSSO,  
and MAURIZIO PROIETTI

doi:10.1017/S1471068418000157, Published by Cambridge University Press,  
10 August 2018.

A few lines in the original article (De Angelis et al. 2018) were printed incorrectly.

On page 454 line 5 the definition of the type *tree* should read:

`type tree = Leaf | Node of int * tree * tree ;;`

On page 455 line 14 the definition of *Types* should read:

$Types \ni \tau ::= int \mid bool \mid ident \mid \tau_1 * \dots * \tau_k$

On page 455 lines 24–26 the definitions of *Values* and *Terms* should read:

$Values \ni v ::= n \mid b \mid c v_1 \dots v_k$

$Terms \ni t ::= n \mid b \mid x \mid c t_1 \dots t_k \mid f t_1 \dots t_k \mid \text{if } t_0 \text{ then } t_1 \text{ else } t_2$   
 $\mid \text{let } x = t_0 \text{ in } t_1 \mid \text{match } x \text{ with } \mid p_1 \rightarrow t_1 \mid \dots \mid p_n \rightarrow t_n$
