

## Index of Subjects

### S-Adenosylmethionine

Tissue S-adenosylmethionine levels in fruit bats (*Rousettus aegyptiacus*) with nitrous oxide-induced neuropathy. **50**, 325, 1983

### Adipose tissue

The influence of protein nutrition in early life on growth and development of the pig. 2. Effects on the cellularity of muscle and subcutaneous adipose tissue. **50**, 619, 1983

### Amino acid oxidation

Determination of amino acid requirements of young pigs using an indicator amino acid. **50**, 369, 1983

Amino acid oxidation by young pigs receiving diets with varying levels of sulphur amino acids. **50**, 383, 1983

Oxidation of an indicator amino acid by young pigs receiving diets with varying levels of lysine or threonine, and an assessment of amino acid requirements. **50**, 391, 1983

### Amino acid requirements

Determination of amino acid requirements of young pigs using an indicator amino acid. **50**, 369, 1983

Oxidation of an indicator amino acid by young pigs receiving diets with varying levels of lysine or threonine, and an assessment of amino acid requirements. **50**, 391, 1983

Protein, essential amino acids and glycine requirements of the growing gosling (*Anser cyrenus*). **50**, 455, 1983

### Appetite

The effect of body condition on metabolic changes associated with intake of food by the cow. **50**, 81, 1983

### Beverages

The influence of dietary tea, coffee and cocoa on protein and energy utilization of soya-bean meal and barley in rats. **50**, 197, 1983

### Biotin deficiency

The effect of biotin deficiency and dietary protein content on lipogenesis, gluconeogenesis and related enzyme activities in chick liver. **50**, 291, 1983

### Body water

Losses in weight and body water in sows after weaning. **50**, 163, 1983

### Bone development

The effect of prenatal protein-energy malnutrition on the development of mandibles and long bones in newborn rats. **50**, 75, 1983

### Bran

Nature of the effects of bran on digestive transit time in pigs. **50**, 685, 1983

### Brassica diets

Copper metabolism in growing sheep given kale (*Brassica oleracea*) and ryegrass (*Lolium perenne*)-clover (*Trifolium repens*) fresh forage diets. **50**, 281, 1983

### Caecal metabolism

The influence of dietary fibre on caecal metabolism in the rat. **50**, 679, 1983

### Calcium

Calcium and phosphorus requirements of the ewe during pregnancy and lactation. 1. Calcium. **50**, 711, 1983

### Carbohydrate digestion

Factors influencing the digestion of dietary carbohydrates between the mouth and abomasum of steers. **50**, 445, 1983

### Carbon recycling

Whole-body metabolism of glucose and lactate in productive sheep and cows. **50**, 249, 1983

### Carotene-cleavage

Carotene-cleavage activity in chick intestinal mucosa cytosol: association with a high-molecular-weight lipid-protein aggregate fraction and partial characterization of the activity. **50**, 417, 1983

### Cholesterol

The influence of guar gum on intestinal cholesterol transport in the rat. **50**, 215, 1983

### Cold exposure

The intake of milk by suckled, newborn lambs and the effects of twinning and cold exposure. **50**, 151, 1983

### Colonic function

Physiological effects of fibre-rich types of bread. 2. Dietary fibre from bread: digestibility by the intestinal microflora and water-holding capacity in the colon of human subjects. **50**, 61, 1983

### Copper absorption

The influence of pancreatic juice on <sup>64</sup>Cu absorption in the rat. **50**, 113, 1983

### Copper deficiency

Hepatic iron accumulation in copper-deficient rats. **50**, 653, 1983

### Copper metabolism

Copper metabolism in growing sheep given kale (*Brassica oleracea*) and ryegrass (*Lolium perenne*)-clover (*Trifolium repens*) fresh forage diets. **50**, 281, 1983

### Creatinine excretion

The effect of changes in the amount of energy infused as volatile fatty acids on the nitrogen retention and creatinine excretion of lambs wholly nourished by intragastric infusion. **50**, 331, 1983

### Dietary fibre

Physiological effects of fibre-rich types of bread. 2. Dietary fibre from bread: digestibility by the intestinal microflora and water-holding capacity in the colon of human subjects. **50**, 61, 1983

Effects of addition of kaolin or cellulose to an elemental diet on intestinal cell proliferation in the mouse. **50**, 91, 1983

Differing effects of pectin, cellulose and lignin on stool pH, transit time and weight. **50**, 189, 1983

- The influence of dietary fibre on caecal metabolism in the rat. 50, 679, 1983
- Nature of the effects of bran on digestive transit time in pigs. 50, 685, 1983
- Digestibility of straw**
- Factors influencing the digestion of dietary carbohydrates between the mouth and abomasum of steers. 50, 445, 1983
- Digestive transit time**
- Nature of the effects of bran on digestive transit time in pigs. 50, 685, 1983
- Domestic fowl**
- N*<sup>7</sup>-methyl histidine excretion by poultry: not all species excrete *N*<sup>7</sup>-methyl histidine quantitatively. 50, 691, 1983
- Elemental diet**
- Effects of addition of kaolin or cellulose to an elemental diet on intestinal cell proliferation in the mouse. 50, 91, 1983
- Energy expenditure**
- Dependence of 24 h energy expenditure in man on the composition of the nutrient intake. 50, 1, 1983
- Energy requirements**
- Investigation of nitrogen balance in dairy cows and steers nourished by intragastric infusion. Effects of submaintenance energy input with or without protein. 50, 99, 1983
- Energy utilization**
- The influence of dietary tea, coffee and cocoa on protein and energy utilization of soya-bean meal and barley in rats. 50, 197, 1983
- Ethanol**
- The effect of chronic ethanol administration on lipogenesis in liver and adipose tissue in the rat. 50, 549, 1983
- Faecal bulking**
- Measurement of water-holding properties of fibre and their faecal bulking ability in man. 50, 539, 1983
- Fats**
- Similar serum lipoprotein reductions by lipid-lowering diets with different polyunsaturated: saturated fat values. 50, 531, 1983
- Fatty acid desaturation**
- Effect of dietary fats on the  $\Delta 6$ - and  $\Delta 5$ -desaturation of fatty acids in rat liver microsomes. 50, 749, 1983
- Fatty acids**
- The effect of body condition on metabolic changes associated with intake of food by the cow. 50, 81, 1983
- The inhibitory effect of intestinal infusions of unsaturated long-chain fatty acids on forestomach motility of sheep. 50, 141, 1983
- Fibre**
- Physiological effects of fibre-rich types of bread. 2. Dietary fibre from bread: digestibility by the intestinal microflora and water-holding capacity in the colon of human subjects. 50, 61, 1983
- Differing effects of pectin, cellulose and lignin on stool pH, transit time and weight. 50, 189, 1983
- The effects of breads containing similar amounts of phytate but different amounts of wheat bran on calcium, zinc and iron balance in man. 50, 503, 1983
- Measurement of water-holding properties of fibre and their faecal bulking ability in man. 50, 539, 1983
- Folate-binding protein**
- Neonatal role of milk folate-binding protein: studies on the course of digestion of goat's milk folate binder in the 6-d-old kid. 50, 589, 1983
- Folate status**
- The effect of oral contraceptive therapy and of pregnancy on serum folate levels of rural Sri Lankan women. 50, 495, 1983
- Food restriction**
- Winter food restriction and summer compensation in red deer stags (*Cervus elaphus*). 50, 737, 1983
- Fruit bat (*Rousettus aegyptiacus*)**
- Tissue S-adenosylmethionine levels in fruit bats (*Rousettus aegyptiacus*) with nitrous oxide-induced neuropathy. 50, 325, 1983
- Germ-free chicks**
- The activities of some metabolic enzymes in the intestines of germ-free and conventional chicks. 50, 783, 1983
- Glucose metabolism**
- Whole-body metabolism of glucose and lactate in productive sheep and cows. 50, 249, 1983
- Glucose production**
- Glucose production and utilization in non-pregnant, pregnant and lactating ewes. 50, 303, 1983
- Glucose-lactate interconversions**
- Tissue glucose and lactate metabolism and interconversions in pregnant and lactating sheep. 50, 267, 1983
- Glutathione**
- Absorption of methionine and methionine sulphoxide in rat intestine and the effect of glutathione. 50, 583, 1983
- Glycine requirement**
- Protein, essential amino acids and glycine requirements of the growing gosling (*Anser ciureus*). 50, 455, 1983
- Goat's milk**
- Neonatal role of milk folate-binding protein: studies on the course of digestion of goat's milk folate binder in the 6-d-old kid. 50, 589, 1983
- Gosling (*Anser ciureus*)**
- Protein, essential amino acids and glycine requirements of the growing gosling (*Anser ciureus*). 50, 455, 1983
- Growth**
- The influence of protein nutrition in early life on growth and development of the pig. 1. Effects on growth performance and body composition. 50, 605, 1983
- The influence of protein nutrition in early life on growth and development of the pig. 2. Effects on the cellularity of muscle and subcutaneous adipose tissue. 50, 619, 1983
- Guar gum**
- The influence of guar gum on intestinal cholesterol transport in the rat. 50, 215, 1983
- Haemagglutinins**
- A survey of the nutritional and haemagglutination properties of legume seeds generally available in the UK. 50, 207, 1983

- Insulin-receptor binding**  
The effect of high-protein and high-carbohydrate diets on [<sup>125</sup>I]iodoinsulin binding in skeletal muscle plasma membranes and isolated hepatocytes of rainbow trout (*Salmo gairdneri*). 50, 129, 1983
- Intestinal absorption**  
The influence of guar gum on intestinal cholesterol transport in the rat. 50, 215, 1983
- Intestinal cell proliferation**  
Effects of addition of kaolin or cellulose to an elemental diet on intestinal cell proliferation in the mouse. 50, 91, 1983
- Intestinal enzymes**  
The activities of some metabolic enzymes in the intestines of germ-free and conventional chicks. 50, 783, 1983
- Intestinal zinc absorption**  
Chemical factors affecting the intestinal absorption of zinc in vitro and in vivo. 50, 317, 1983
- Intragastric infusion**  
Investigation of nitrogen balance in dairy cows and steers nourished by intragastric infusion. Effects of submaintenance energy input with or without protein. 50, 99, 1983  
The effect of changes in the amount of energy infused as volatile fatty acids on the nitrogen retention and creatinine excretion of lambs wholly nourished by intragastric infusion. 50, 331, 1983
- Iron**  
Peroral xylitol increases the concentration levels of tissue iron in the rat. 50, 109, 1983
- Iron absorption**  
Iron absorption from a malted cocoa drink fortified with ferric orthophosphate using the stable isotope <sup>58</sup>Fe as an extrinsic label. 50, 51, 1983
- Iron accumulation**  
Hepatic iron accumulation in copper-deficient rats. 50, 653, 1983
- Iron availability**  
Studies on the availability of iron in potatoes. 50, 15, 1983  
Availability of iron from chicken meat and liver given to rats. 50, 511, 1983
- Iron-fortified food**  
Iron absorption from a malted cocoa drink fortified with ferric orthophosphate using the stable isotope <sup>58</sup>Fe as an extrinsic label. 50, 51, 1983
- Kitten**  
The tryptophan requirement of the kitten. 50, 487, 1983
- Labelled proteins**  
Hydrolysis of <sup>14</sup>C-labelled proteins by rumen micro-organisms and by proteolytic enzymes prepared from rumen bacteria. 50, 345, 1983
- Lactate metabolism**  
Whole-body metabolism of glucose and lactate in productive sheep and cows. 50, 249, 1983
- Lactation**  
Whole-body metabolism of glucose and lactate in productive sheep and cows. 50, 249, 1983  
Tissue glucose and lactate metabolism and inter-conversions in pregnant and lactating sheep. 50, 267, 1983  
Glucose production and utilization in non-pregnant, pregnant and lactating ewes. 50, 303, 1983
- Calcium and phosphorus requirements of the ewe during pregnancy and lactation. 1. Calcium. 50, 711, 1983  
Calcium and phosphorus requirements of the ewe during pregnancy and lactation. 2. Phosphorus. 50, 723, 1983
- Large intestine**  
Studies of the large intestine of sheep. 3. Nitrogen kinetics in sheep given chopped lucerne (*Medicago sativa*) hay. 50, 757, 1983
- Legume seeds**  
A survey of the nutritional and haemagglutination properties of legume seeds generally available in the UK. 50, 207, 1983
- Leucine**  
Effects of a dietary excess of leucine on the metabolism of tryptophan in the rat: a mechanism for the pellagragenic action of leucine. 50, 25, 1983
- Lignin**  
Effects of ruminant digestion and metabolism on phenolic monomers of forages. 50, 637, 1983
- Lipid metabolism**  
Effect of high vitamin A or tocopherol intake on hepatic lipid metabolism and intestinal absorption and secretion of lipids and bile acids in the chick. 50, 409, 1983
- Lipid peroxidation**  
Glutathione peroxidase (*EC* 1.11.1.9), glutathione-S-transferase (*EC* 2.5.1.13), superoxide dismutase (*EC* 1.15.1.1) and catalase (*EC* 1.11.1.6) activities in tissues of ducklings deprived of vitamin E and selenium. 50, 437, 1983
- Lipogenesis**  
The effect of chronic ethanol administration on lipogenesis in liver and adipose tissue in the rat. 50, 549, 1983
- Lipoproteins**  
Similar serum lipoprotein reductions by lipid-lowering diets with different polyunsaturated:saturated fat values. 50, 531, 1983
- Liquid-associated rumen bacteria**  
A comparison of the chemical composition of mixed bacteria harvested from the liquid and solid fractions of rumen digesta. 50, 701, 1983
- Liver lipids**  
Effects on liver and serum lipids of dietary supplements of methionine and excess lysine given to previously-starved rats. 50, 627, 1983
- Lysine**  
Effects on liver and serum lipids of dietary supplements of methionine and excess lysine given to previously-starved rats. 50, 627, 1983
- Magnesium deficiency**  
Studies on the nutrition of rainbow trout (*Salmo gairdneri*). Magnesium deficiency: the effect of feeding with a Mg-supplemented diet. 50, 121, 1983
- Mathematical model**  
Evaluation of a mathematical model of rumen digestion and an in vitro simulation of rumen proteolysis to estimate the rumen-undegraded nitrogen content of feedstuffs. 50, 555, 1983

- Methionine**  
Effects on liver and serum lipids of dietary supplements of methionine and excess lysine given to previously-starved rats. 50, 627, 1983
- Methionine metabolism**  
Rate of endogenous methionine oxidation in rats at different levels of methionine intake. 50, 157, 1983
- Methionine requirement**  
Amino acid oxidation by young pigs receiving diets with varying levels of sulphur amino acids. 50, 383, 1983
- Methionine sulphoxide**  
Absorption of methionine and methionine sulphoxide in rat intestine and the effect of glutathione. 50, 583, 1983
- Microbial nitrogen**  
The nutritive value of rumen micro-organisms in ruminants. 2. The apparent digestibility and net utilization of microbial N for growing lambs. 50, 471, 1983
- Microcytic hypochromic anaemia**  
Hepatic iron accumulation in copper-deficient rats. 50, 653, 1983
- Milk folate-binding protein**  
Neonatal role of milk folate-binding protein: studies on the course of digestion of goat's milk folate binder in the 6-d-old kid. 50, 589, 1983
- Milk intake**  
The intake of milk by suckled, newborn lambs and the effects of twinning and cold exposure. 50, 151, 1983
- Mineral balance**  
The effects of breads containing similar amounts of phytate but different amounts of wheat bran on calcium, zinc and iron balance in man. 50, 503, 1983
- Mineral nutrition**  
Simultaneous determination of absorption of selenium from poultry meat and selenite in young men: application of a triple stable-isotope method. 50, 43, 1983
- Muscle fibre types**  
Effect of zinc deficiency on muscle fibre type frequencies in the post-weaning rat. 50, 597, 1983
- N<sup>7</sup>-Methyl histidine**  
N<sup>7</sup>-methyl histidine excretion by poultry: not all species excrete N<sup>7</sup>-methyl histidine quantitatively. 50, 691, 1983
- Nitrogen balance**  
The effect of changes in the amount of energy infused as volatile fatty acids on the nitrogen retention and creatinine excretion of lambs wholly nourished by intragastric infusion. 50, 331, 1983
- Nitrogen capture**  
Factors affecting the capture of dietary nitrogen by micro-organisms in the forestomachs of the young steer. Experiments with [<sup>15</sup>N]urea. 50, 427, 1983
- Nitrogen kinetics**  
Studies of the large intestine of sheep. 3. Nitrogen kinetics in sheep given chopped lucerne (*Medicago sativa*) hay. 50, 757, 1983
- Nitrogen requirement**  
Basal urinary nitrogen excretion and growth response to supplemental protein by lambs close to energy equilibrium. 50, 173, 1983
- Nitrous oxide-induced neuropathy**  
Tissue S-adenosylmethionine levels in fruit bats (*Rousettus aegyptiacus*) with nitrous oxide-induced neuropathy. 50, 325, 1983
- Nutrient intake**  
Dependence of 24 h energy expenditure in man on the composition of the nutrient intake. 50, 1, 1983
- Oestrogens**  
Effects of oestradiol and vitamin B<sub>6</sub> on tryptophan metabolism in the rat: implications for the interpretation of the tryptophan load test for vitamin B<sub>6</sub> nutritional status. 50, 33, 1983
- Oral contraceptive**  
The effect of oral contraceptive therapy and of pregnancy on serum folate levels of rural Sri Lankan women. 50, 495, 1983
- Pancreatic juice**  
The influence of pancreatic juice on <sup>64</sup>Cu absorption in the rat. 50, 113, 1983
- Pellagra**  
Effects of a dietary excess of leucine on the metabolism of tryptophan in the rat: a mechanism for the pellagragenic action of leucine. 50, 25, 1983
- Phenolic monomers**  
Effects of ruminant digestion and metabolism on phenolic monomers of forages. 50, 637, 1983
- Phosphorus**  
Calcium and phosphorus requirements of the ewe during pregnancy and lactation. 2. Phosphorus. 50, 723, 1983
- Phytase (EC 3.1.3.8)**  
Mammalian small intestinal phytase (EC 3.1.3.8). 50, 673, 1983
- Phytate**  
The effects of breads containing similar amounts of phytate but different amounts of wheat bran on calcium, zinc and iron balance in man. 50, 503, 1983
- Pig diets**  
Voluntary food intake of growing pigs given diets containing rapeseed meal, from different types and varieties of rape, as the only protein supplement. 50, 661, 1983
- Plasma lipids**  
A comparison of the influence on plasma lipids and platelet function of supplements of  $\omega$ 3 and  $\omega$ 6 polyunsaturated fatty acids. 50, 521, 1983
- Platelet function**  
A comparison of the influence on plasma lipids and platelet function of supplements of  $\omega$ 3 and  $\omega$ 6 polyunsaturated fatty acids. 50, 521, 1983
- Polyenoic fatty acids**  
Effect of dietary fats on the  $\Delta$ 6- and  $\Delta$ 5-desaturation of fatty acids in rat liver microsomes. 50, 749, 1983
- Polyunsaturated fatty acids**  
A comparison of the influence on plasma lipids and platelet function of supplements of  $\omega$ 3 and  $\omega$ 6 polyunsaturated fatty acids. 50, 521, 1983  
Similar serum lipoprotein reductions by lipid-lowering diets with different polyunsaturated: saturated fat values. 50, 531, 1983

**Post-weaning losses**

Losses in weight and body water in sows after weaning. 50, 163, 1983

**Potatoes**

Studies on the availability of iron in potatoes. 50, 15, 1983

**Pregnancy**

Whole-body metabolism of glucose and lactate in productive sheep and cows. 50, 249, 1983

Tissue glucose and lactate metabolism and inter-conversions in pregnant and lactating sheep. 50, 267, 1983

Glucose production and utilization in non-pregnant, pregnant and lactating ewes. 50, 303, 1983

The effect of oral contraceptive therapy and of pregnancy on serum folate levels of rural Sri Lankan women. 50, 495, 1983

Calcium and phosphorus requirements of the ewe during pregnancy and lactation. 1. Calcium. 50, 711, 1983

Calcium and phosphorus requirements of the ewe during pregnancy and lactation. 2. Phosphorus. 50, 723, 1983

**Prenatal malnutrition**

The effect of prenatal protein-energy malnutrition on the development of mandibles and long bones in newborn rats. 50, 75, 1983

**Propionate**

Glucose production and utilization in non-pregnant, pregnant and lactating ewes. 50, 303, 1983

**Protein degradation**

Rates of proteolysis in the rumen of the soluble proteins casein, Fraction I (18S) leaf protein, bovine serum albumin and bovine submaxillary mucoprotein. 50, 357, 1983

Rumen protein degradation and biosynthesis. 1. A new method for determination of protein degradation in rumen fluid in vitro. 50, 569, 1983

**Protein metabolism**

Effects of trenbolone acetate and zeranol on protein metabolism in male castrate and female lambs. 50, 225, 1983

**Protein nutrition**

The influence of protein nutrition in early life on growth and development of the pig. 1. Effects on growth performance and body composition. 50, 605, 1983

The influence of protein nutrition in early life on growth and development of the pig. 2. Effects on the cellularity of muscle and subcutaneous adipose tissue. 50, 619, 1983

**Protein requirements**

Investigation of nitrogen balance in dairy cows and steers nourished by intragastric infusion. Effects of submaintenance energy input with or without protein. 50, 99, 1983

**Protein supplement**

Basal urinary nitrogen excretion and growth response to supplemental protein by lambs close to energy equilibrium. 50, 173, 1983

Voluntary food intake of growing pigs given diets containing rapeseed meal, from different types and varieties of rape, as the only protein supplement. 50, 661, 1983

**Protein utilization**

The influence of dietary tea, coffee and cocoa on protein and energy utilization of soya-bean meal and barley in rats. 50, 197, 1983

**Protein-biotin interaction**

The effect of biotin deficiency and dietary protein content on lipogenesis, gluconeogenesis and related enzyme activities in chick liver. 50, 291, 1983

**Quail**

*N*-methyl histidine excretion by poultry: not all species excrete *N*-methyl histidine quantitatively. 50, 691, 1983

**Rainbow trout (*Salmo gairdneri*)**

Studies on the nutrition of rainbow trout (*Salmo gairdneri*). Magnesium deficiency: the effect of feeding with a Mg-supplemented diet. 50, 121, 1983

The effect of high-protein and high-carbohydrate diets on [<sup>125</sup>I]iodoinsulin binding in skeletal muscle plasma membranes and isolated hepatocytes of rainbow trout (*Salmo gairdneri*). 50, 129, 1983

**Rapeseed meal**

Voluntary food intake of growing pigs given diets containing rapeseed meal, from different types and varieties of rape, as the only protein supplement. 50, 661, 1983

**Red deer (*Cervus elaphus*)**

Winter food restriction and summer compensation in red deer stags (*Cervus elaphus*). 50, 737, 1983

**Reticulo-rumen motility**

The inhibitory effect of intestinal infusions of unsaturated long-chain fatty acids on forestomach motility of sheep. 50, 141, 1983

**Retinol homeostasis**

Retinol homeostasis in lambs given low and high intakes of vitamin A. 50, 235, 1983

**Retinol metabolism**

Vitamin A absorption and metabolism in the chick: response to high dietary intake and to tocopherol. 50, 401, 1983

**Rumen ammonia**

Incorporation of nitrogen into rumen bacterial fractions of steers given protein- and urea-containing diets. Ammonia assimilation into intracellular bacterial amino acids. 50, 769, 1983

**Rumen bacteria**

A comparison of the chemical composition of mixed bacteria harvested from the liquid and solid fractions of rumen digesta. 50, 701, 1983

Incorporation of nitrogen into rumen bacterial fractions of steers given protein- and urea-containing diets. Ammonia assimilation into intracellular bacterial amino acids. 50, 769, 1983

**Rumen digestion**

Evaluation of a mathematical model of rumen digestion and an in vitro simulation of rumen proteolysis to estimate the rumen-undegraded nitrogen content of feedstuffs. 50, 555, 1983

**Rumen metabolism**

Rates of proteolysis in the rumen of the soluble proteins casein, Fraction I (18S) leaf protein, bovine serum albumin and bovine submaxillary mucoprotein. 50, 357, 1983

**Rumen micro-organisms**

- Hydrolysis of  $^{14}\text{C}$ -labelled proteins by rumen micro-organisms and by proteolytic enzymes prepared from rumen bacteria. 50, 345, 1983
- Factors affecting the capture of dietary nitrogen by micro-organisms in the forestomachs of the young steer. Experiments with  $^{15}\text{N}$ urea. 50, 427, 1983
- The nutritive value of rumen micro-organisms in ruminants. 1. Large-scale isolation and chemical composition of rumen micro-organisms. 50, 463, 1983
- The nutritive value of rumen micro-organisms in ruminants. 2. The apparent digestibility and net utilization of microbial N for growing lambs. 50, 471, 1983
- The nutritive value of rumen micro-organisms in ruminants. 3. The digestion of microbial amino and nucleic acids in, and losses of endogenous nitrogen from, the small intestine of sheep. 50, 479, 1983

**Rumen protein degradation**

- Rumen protein degradation and biosynthesis. 1. A new method for determination of protein degradation in rumen fluid in vitro. 50, 569, 1983

**Ruminant digestion**

- Effects of ruminant digestion and metabolism on phenolic monomers of forages. 50, 637, 1983

**Ryegrass-clover pasture**

- Copper metabolism in growing sheep given kale (*Brassica oleracea*) and ryegrass (*Lolium perenne*)-clover (*Trifolium repens*) fresh forage diets. 50, 281, 1983

**Selenium**

- Glutathione peroxidase (*EC* 1.11.1.9), glutathione-S-transferase (*EC* 2.5.1.13), superoxide dismutase (*EC* 1.15.1.1) and catalase (*EC* 1.11.1.6) activities in tissues of ducklings deprived of vitamin E and selenium. 50, 437, 1983

**Selenium absorption**

- Simultaneous determination of absorption of selenium from poultry meat and selenite in young men: application of a triple stable-isotope method. 50, 43, 1983

**Small intestine**

- Mammalian small intestinal phytase (*EC* 3.1.3.8). 50, 673, 1983

**Solid-associated rumen bacteria**

- A comparison of the chemical composition of mixed bacteria harvested from the liquid and solid fractions of rumen digesta. 50, 701, 1983

**Stable isotopes**

- Simultaneous determination of absorption of selenium from poultry meat and selenite in young men: application of a triple stable-isotope method. 50, 43, 1983
- Iron absorption from a malted cocoa drink fortified with ferric orthophosphate using the stable isotope  $^{58}\text{Fe}$  as an extrinsic label. 50, 51, 1983

**Stools and fibre**

- Differing effects of pectin, cellulose and lignin on stool pH, transit time and weight. 50, 189, 1983

**Sulphur amino acids**

- Amino acid oxidation by young pigs receiving diets with varying levels of sulphur amino acids. 50, 383, 1983

**Tocopherol**

- Vitamin A absorption and metabolism in the chick: response to high dietary intake and to tocopherol. 50, 401, 1983
- Effect of high vitamin A or tocopherol intake on hepatic lipid metabolism and intestinal absorption and secretion of lipids and bile acids in the chick. 50, 409, 1983

**Trenbolone acetate**

- Effects of trenbolone acetate and zeranol on protein metabolism in male castrate and female lambs. 50, 225, 1983

**Tryptophan metabolism**

- Effects of a dietary excess of leucine on the metabolism of tryptophan in the rat: a mechanism for the pellagragenic action of leucine. 50, 25, 1983
- Effects of oestradiol and vitamin  $\text{B}_6$  on tryptophan metabolism in the rat: implications for the interpretation of the tryptophan load test for vitamin  $\text{B}_6$  nutritional status. 50, 33, 1983

**Tryptophan requirement**

- The tryptophan requirement of the kitten. 50, 487, 1983

**Undegraded dietary nitrogen**

- Evaluation of a mathematical model of rumen digestion and an in vitro simulation of rumen proteolysis to estimate the rumen-undegraded nitrogen content of feedstuffs. 50, 555, 1983

**Unsaturated fatty acids**

- The inhibitory effect of intestinal infusions of unsaturated long-chain fatty acids on forestomach motility of sheep. 50, 141, 1983

 **$^{15}\text{N}$ Urea**

- Factors affecting the capture of dietary nitrogen by micro-organisms in the forestomachs of the young steer. Experiments with  $^{15}\text{N}$ urea. 50, 427, 1983

**Vitamin A**

- Retinol homeostasis in lambs given low and high intakes of vitamin A. 50, 235, 1983
- Vitamin A absorption and metabolism in the chick: response to high dietary intake and to tocopherol. 50, 401, 1983
- Effect of high vitamin A or tocopherol intake on hepatic lipid metabolism and intestinal absorption and secretion of lipids and bile acids in the chick. 50, 409, 1983

**Vitamin  $\text{B}_6$** 

- Effects of oestradiol and vitamin  $\text{B}_6$  on tryptophan metabolism in the rat: implications for the interpretation of the tryptophan load test for vitamin  $\text{B}_6$  nutritional status. 50, 33, 1983

**Vitamin E**

- Glutathione peroxidase (*EC* 1.11.1.9), glutathione-S-transferase (*EC* 2.5.1.13), superoxide dismutase (*EC* 1.15.1.1) and catalase (*EC* 1.11.1.6) activities in tissues of ducklings deprived of vitamin E and selenium. 50, 437, 1983

**Water-holding capacity**

- Measurement of water-holding properties of fibre and their faecal bulking ability in man. 50, 539, 1983

**Xylitol**

- Peroral xylitol increases the concentration levels of tissue iron in the rat. 50, 109, 1983

**Zeranol**

Effects of trenbolone acetate and zeranol on protein metabolism in male castrate and female lambs. **50**, 225, 1983

**Zinc**

Chemical factors affecting the intestinal absorption of zinc in vitro and in vivo. **50**, 317, 1983

**Zinc deficiency**

Effect of zinc deficiency on muscle fibre type frequencies in the post-weanling rat. **50**, 597, 1983
