

Instructions for contributors

All papers must be submitted using Manuscript Central through the journal's website at: cambridge.org/aso

Submission requirements

Submission of an article is taken to imply that it has not been published elsewhere. Authors will be required to confirm on submission of their article that the manuscript has been submitted solely to this journal and is not published, in press, or submitted elsewhere.

Papers with more than one author must designate a corresponding author. The corresponding author must confirm that co-authors have read the paper and agree to its submission.

The corresponding author should prepare (a) a complete text and (b) complete text minus the title page, acknowledgements, and any running headers of author names, to allow blinded review.

Where the paper reports original research on human subjects, confirmation must be given that ethical guidelines have been met, including adherence to the legal requirements of the study country. Authors must state the full name of the body providing the favourable ethical review and reference number.

A declaration of sources of funding must be provided if appropriate. Authors must specify what role, if any, their financial sponsors played in the design, execution, analysis and interpretation of data, or writing of the study.

Contributors of articles or reviews accepted for publication will be asked to assign copyright, on certain conditions, to Cambridge University Press. The Publisher reserves the right to typeset material by conventional means.

Preparation of manuscripts

Authors are requested to bear in mind the multi-disciplinary and international readership of the journal when writing their contribution. Care must be taken to draw out the implications of the analysis for readers in other fields, other countries, and other disciplines.

The stereotypical presentation of individuals or social groupings, including the use of ageist language, must be avoided.

Articles must be between 3,000 and 9,000 words (excluding the abstract and references). All contributions (including reviews) should be typed double-spaced with at least one-inch or two centimetre margins throughout (including notes and the list of references).

Most research articles usually have the following sections in sequence: Title page, Abstract (200-300 words), Keywords (three to eight), Main text, Statement of ethical approval as appropriate, Statement of funding, Declaration of contribution of authors, Statement of conflict of interest, Acknowledgements, Notes, References, Correspondence address for lead author. The tables and figures should be presented one to a page in sequence at the end of the paper.

The title page should give the title of the article and the author(s)' names, affiliations and postal and email addresses.

Authors are asked to follow the current style conventions as closely as possible. Please consult a very recent issue of the journal and download the full instructions for contributors from the journal's website: cambridge.org/aso

Proofs and offprints

Proofs will be sent to the corresponding author as a PDF via email for final proof reading. The proofs should be checked and any corrections returned within 2 days of receipt. The publisher reserves the right to charge authors for excessive correction of non-typographical errors.

Authors will receive a PDF of the published paper and a copy of the journal, to go to the corresponding author. If offprints are required, these must be purchased at proof stage.

Copying: This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organisations in the USA that are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$12. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0144-686X/2022 \$12.

ISI Tear Sheet Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorised to supply single copies of separate articles for private use only.

Organisations authorised by the Copyright Licensing Agency may also copy material subject to the usual conditions. *For all other use*, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Internet Access: This journal is included in the Cambridge Journals Online service which can be found at cambridge.org/aso
