Editor Emeritus
DINEEN PAUL

Psychological Medicine is a journal primarily for the publication of original research in clinical psychiatry and the basic sciences related to it. This includes relevant fields of biological enquiry traditionally associated with medicine but also the various psychological and social sciences. Review articles, editorials and letters to the Editor discussing published papers are also published. Contributions must be in English.

Books for review should be sent to one of the Editors, depending on country of publication (see instructions for contributors). Manuscripts submitted to the UK Office should be sent to the Journal's Promotion Department of the Cambridge or American Branch of Cambridge University Press, UPH, 40 West 20th Street, New York, NY 10011-4211, USA. All others should be submitted to the UK Office.

Manuscripts should be submitted online via our manuscript submission and tracking site, http://www.editorialmanager.com/psm/. Full instructions for contributors to medical journals. Cambridge University Press recommends the following formats and resolutions for supplying electronic figures. Please ensure that your figures are saved at final publication size and are in our recommended file formats. Following these guidelines will result in high quality images being reproduced in both the print and the online versions of the journal. Line artwork: Format: tif or eps, Colour mode: black and white (also known as 1-bit), Resolution: 1200 dpi; Black and white halftone artwork: Format: tif, Colour mode: grayscale (also known as 8-bit), Resolution: 300 dpi; Coloured halftone artwork: Format: tif, Colour mode: CMYK colour, Resolution: 300 dpi. All graphs, figures, and diagrams should be referred to as figures and should be numbered consecutively in Arabic numerals. Captions for figures should be typed double-spaced on separate sheets. Tables should be numbered consecutively in the text in Arabic numerals and each typed on a separate sheet after the References section. Titles should be typed above the table.

POOFS AND OFFPRINTS Page proofs will be sent to the author designated to receive correspondence. Corrections other than to printer's errors may be charged to the author. The corresponding author of each paper will receive a PDF file of their article and hard copy offprints may be purchased if they are ordered on the form supplied when the proof is returned.

SUBMISSION OF MANUSCRIPTS Manuscripts should be submitted online via our manuscript submission and tracking site, http://www.editorialmanager.com/psm/. Full instructions for electronic submission are available directly from this site. To facilitate rapid reviewing, communications for peer review will be electronic and authors will need to supply a current e-mail address when registering to use the system.

Papers for publication from Europe (except those on genetic topics, irrespective of country), and all papers on imaging topics, should be submitted to the UK Office. Papers from the Americas, Africa, Australasia and the Middle East (except those dealing with imaging topics), and all papers dealing with genetic topics, irrespective of country, should be sent to US Office.

Generally papers should not have text more than 4500 words in length (excluding these sections) and should not have more than a combined total of 5 tables and/or figures. Papers shorter than these limits are encouraged. For papers of unusual importance the editors may waive these restrictions. A structured abstract of no more than 250 words should be given at the beginning of the article using the headings: Background; Methods; Results; Conclusions. The name of the author to whom correspondence should be sent must be indicated and a full postal address given in the footnote. Any acknowledgements should be placed at the end of the text (before the References section).

Declaration of Interest: A statement must be provided in the acknowledgements listing all financial support received for the work and, for all authors, any financial involvement (including employment, fees, share ownership) or affiliation with any organization whose financial interests may be affected by material in the manuscript, or which might potentially bias it. This applies to all papers including editorials and letters to the editor.

Contributors should also note the following:
1. S.I. units should be used throughout in text, figures and tables.
2. Authors should spell out in full all abbreviations used in their manuscripts.
3. Foreign quotations and phrases should be followed by a translation.

REFERENCES (1) The Harvard (author-date) system should be used in the text and a complete list of References cited given at the end of the article. In a title citation of a work by more than two authors cite the first author’s name followed by et al. (but all of the names of all the authors should be given in the References section). Where several references are cited together they should be listed in rising date order.

(2) The References section should be supplied in alphabetical order (authors’ names in bold, journal titles in full, following the text. Some examples follow:

Cleckley HJ (1941). The Mask of Sanity, 2nd edn. Misbey; St. Louis, MO.

(3) Online citations doi (when published online prior to printed issue)

FIGURES AND TABLES Only essential figures and tables should be included. Further tables, figures, photographs and appendices, may be included with the online version on the journal website. To ensure that your figures are reproduced to the highest possible standards, Cambridge Journals recommends the following formats and resolutions for supplying electronic figures. Please ensure that your figures are saved at final publication size and are in our recommended file formats. Following these guidelines will result in high quality images being reproduced in both the print and the online versions of the journal. Line artwork: Format: tif or eps, Colour mode: black and white (also known as 1-bit), Resolution: 1200 dpi; Combination artwork (line/zone): Format: tif or eps, Colour mode: grayscale (also known as 8-bit), Resolution: 300 dpi; Black and white halftone artwork: Format: tif, Colour mode: grayscale (also known as 8-bit), Resolution: 300 dpi; Coloured halftone artwork: Format: tif, Colour mode: CMYK colour, Resolution: 300 dpi. All graphics, graphs, and diagrams should be referred to as figures and should be numbered consecutively in Arabic numerals. Captions for figures should be typed double-spaced on separate sheets. Tables should be numbered consecutively in the text in Arabic numerals and each typed on a separate sheet after the References section. Titles should be typed above the table. This journal is published on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world’s forests. Please see www.fsc.org for information. Printed in the UK by Bell & Bain Ltd, Glasgow.
