A course on the management of Maxillofacial Injuries will be held at the University of Iowa, 11-15 May 1970. Limited to fourteen otolaryngologists, preferably those engaged in academic practice, the course will deal with the immediate and delayed treatment of injuries to the soft tissues and underlying skeletal structures of the face, and with associated dental problems. In addition to lectures and demonstrations, ample laboratory practice will be given in methods of open and closed reduction, interdental fixation and suture techniques.

The fee is \$250.

Applications should be sent to: Leslie Bernstein, M.D., B.D.S., Professor, Department of Otolaryngology and Maxillofacial Surgery, University of Iowa, Iowa City, Iowa, U.S.A. 52240.

TEMPORAL BONE DISSECTION—SURGERY COURSE

The Los Angeles Foundation of Otology announces a two-week temporal bone dissection course demonstrating the multiple approaches to the structures of the temporal bone as currently used by the members of the Otologic Medical Group.

The course members will be divided each day to observe televised surgery that will correlate with the dissections of the day. Evenings will be devoted to lectures and motion picture demonstrations.

The instructors will dissect in the temporal bone laboratory over closed circuit television and each student will be supervised as the various procedures and approaches are performed.
