

# How many hours do you spend just looking for the articles you want to read?

- 1 hr. per week  
 2 hrs. per week  
 3 hrs. per week

## That's how many hours ASCA® will save you.

If you're typical of most researchers, it's been shown that you spend up to one-fourth of your time just trying to keep abreast of advances in your field. And that includes many hours just looking for the articles. One, two, maybe three hours that ASCA can save you every week. For only \$3 a week.

ASCA (*Automatic Subject Citation Alert*) saves your time by finding these important articles for you. You simply tell us what subjects interest you. What authors. What research. And we'll prepare a personal computer profile for you which reflects your exact reading interests no matter how narrow or wide ranging they

may be. Then each week, ASCA's computer compares this profile with the articles in 3,700 leading scientific and technical journals and prints out a custom-tailored list telling you which articles to read and exactly where to find them.

But you'll never know how much time ASCA can save you until you try it. Give an ASCA information specialist a call (215-923-3300) and ask about our 13-week, \$39 introductory offer. Or fill in and mail the coupon below. Then think about what you're going to do with all the time you'll save.

## Head of Beef Department Head of Dairy Department

---

The Central American Animal Husbandry Institute, Atenas, a new institute including 321 hectares farm is being established 30 miles from San Jose to provide 3 year post secondary residential diploma courses in Animal Husbandry with strong practical as well as theoretical bias to students from Costa Rica and other South American countries. A British Principal and Farm Manager already in post. Most farm and teaching equipment will be British.

The 2 Departmental Heads, one of whom will also be appointed as Vice Principal must have teaching experience at an agricultural college or farm school/institute as well as overseas experience. They must be prepared to undertake intensive Spanish instruction. The Head of Beef Department should have special knowledge of meat cattle and economics; the Head of Dairy Department, special knowledge of dairy farming and pasture ground in tropical areas (agrostology). They should possess a degree in agriculture, diploma or HNC with teaching and preferably overseas tropical experience. Selected applicants aged between 35-50 years should be available by March 1976. Initial duties will include drawing up technician level courses in preparation for first student intake expected early 1977. Initial appointments 2 years with probable extension.

Salary in range £5000 - £6800 pa or exceptionally higher plus variable tax free overseas allowance in range £695 - £1635 pa.

Other benefits include free family passages, paid leave, children's education allowances and free accommodation and medical attention. All emoluments paid by the British Government. Applicants should normally be citizens of the United Kingdom.

For further information and application forms, please apply giving age and brief details of qualifications and experience to:—

London SW1E 5DH

**Summary:** Every article should have a short summary (not more than 250 words) complete in itself and understandable without reference to the paper. *The summary will be printed at the beginning of the paper.*

**References:** Only papers closely related to the author's work should be referred to; exhaustive lists should be avoided. Bibliographical details should be in the following order: author's name, initials, year, title of paper, title of journal (abbreviated according to the World List of Scientific Periodicals), volume of journal, first and last page of paper. References should be listed in alphabetical order. When abstracts are referred to, the page reference should be followed by (Abstr.).

**Examples:**

BLAXTER, K. L. and WILSON, R. S. 1962. The voluntary intake of roughages by steers. *Anim. Prod.* 4: 351-358.

HAMMOND, J. 1932. *Growth and the Development of Mutton Qualities in the Sheep.* Oliver and Boyd, Edinburgh.

In the text, references should be made by giving author and year; at the first mention all authors should be named, thereafter the first author followed by *et al.* should be used for papers with more than two authors.

**Proofs** are supplied once and must be returned corrected to the Editors within seven days. Only essential corrections should be made.

**Reprints:** Twenty-five reprints of each paper will be supplied free to authors on request. Further copies may be purchased if the order is sent at the proof stage.

*Animal Production* is published six times a year in two volumes. Annual subscription is £14.00 (or \$42.00 in the U.S.A. and Canada) and the price for a single part is £2.50 (or \$7.50) net.

*Proceedings of the British Society of Animal Production* recommenced annual publication as a new series in 1972. Annual subscription is £2.50 (\$7.50 U.S. and Canada) or available with a joint subscription to *Animal Production* at £15.50 (\$46.50).

**Business matters**, including regular subscriptions and sales (current and back numbers of the Journal and the Proceedings) should be addressed to Longman Group, Journals Division, 43/45 Annandale Street, Edinburgh EH7 4AT.
