Aims & Scope
Acta Neuropsychiatrica is the official journal of the Scandinavian College of Neuropsychopharmacology. It is an international journal focusing on translational neuropsychiatry. It publishes high-quality original research papers and reviews. The journal's scope specifically highlights the pathway from discovery to clinical applications, healthcare and global health that can be viewed broadly as the spectrum of work that marks the pathway from discovery to global health. The steps of translation that are within the scope include: 1) fundamental discovery, 2) bench to bedside, 3) clinical trials, 4) translation to clinical guidelines, 5) health policy and usage, and 6) global health. Research covering molecular biology, genetics, pharmacology, imaging and epidemiology is welcome as it contributes to enhancing the field.

Editorial Board

T. Gould, University of Maryland, Baltimore, MD, USA
A. Gjedde, University of Copenhagen, Denmark
M. Geyer, University of San Diego, USA
B.C. Finger, National Institutes of Health, Baltimore, MD, USA
M. Francisco Juruena, University of Sao Paulo, Brazil
B. Elfving, Aarhus University, Denmark
D. Doudet, University of British Columbia, Vancouver, Canada
S. Dinesen-Østergaard, Aarhus University, Denmark
J. Cryan, University College Cork, Ireland
L. Foldager, Aarhus University, Denmark

Statistical Advisor
C.A. Zarate, National Institutes of Mental Health, Bethesda, MD, USA
