## URBANIZATION AT TEOTIHUACÁN, MEXICO

René Millon, General Editor

**Volume One**  
(Parts One and Two)

### The Teotihuacán Map

By René Millon, R. Bruce Drewitt, and  
George L. Cowgill

"René Millon's . . . basic maps of the ancient city, after being meticulously recorded by his researches, have been beautifully printed in the work by the University of Texas Press. It is a masterful job that shortly will be a collector's item. But most important, from an anthropological standpoint, this study and these maps are basic to any understanding of the process of the growth of cities."—Richard S. MacNeish

The first volume in an important new series. **\$30.00**

## MESOAMERICAN ARCHAEOLOGY

*New Approaches*

Edited by Norman Hammond

Introduction by Gordon R. Willey

The twenty-six papers in this book cover much of the most recent research in Mexican and Maya studies. The authors include senior figures in the field as well as a number of younger scholars, and the topics range from in-depth studies of a single site to regional studies. **\$15.00**

## HANDBOOK OF MIDDLE AMERICAN INDIANS

Robert Wauchope, General Editor

Eighth Edition

# Prehistoric Men

Robert J. Braidwood, The University of Chicago

*Prehistoric Men* has always been a popular book, required reading for both introductory and advanced students. In Dr. Braidwood's clear, interesting, and engaging writing style, this brief introduction to prehistory traces human achievement from the earliest beginnings of culture to the dawn of written history.

**The Eighth Edition features**

- **recent findings** in Africa and southeast Asia, taking the appearance of humans back another one-and-a-half to two million years.
- a completely **new chapter** which comparatively describes the advent of agriculture and domestication on a worldwide basis,
- updated **bibliography**, and new maps, graphs, and **illustration program**.

Examination copies for potential second-semester adoptions are available now.  
1975, 224 pages, illustrated, paper, approx. \$4.75

## A New World Archaeology America's Past

Thomas C. Patterson, Temple University

Organized around a set of interrelated problems of cultural-ecological importance, *America's Past* studies human development in terms of adaptive strategies used by different communities to deal with changes in their social and natural environments. An up-to-date synthesis of New World archaeological theory, a good case study in archaeological interpretation, and an excellent companion volume for *Prehistoric Men*! Available now. 1973, 168 pages, illustrated, paper \$4.25

# The Adena People

BY WILLIAM S. WEBB AND CHARLES E. SNOW

*With a Chapter on Adena Pottery and  
a Foreword to the New Edition by James B. Griffin*

*The Adena People* is widely recognized as one of the major works on eastern archaeology published during the first half of this century. The study was the focus of much controversy; although new tools of analysis have changed the terms of the debate, as have additional excavations and contemporary understandings, uncertainty of interpretation continues. This reprint will be welcomed, for the book remains a standard reference work on the prehistory of the Ohio Valley.

420 pp., 26 pp. of illustrations, \$10.75
