Parasitology (ISSN 0031–1820) is published monthly and semi-monthly in April and September.

Subscriptions may be sent to any bookseller or subscription agent or direct to the publisher: Cambridge University Press, University Printing House, Shaftesbury Road, Cambridge CB2 8BS, UK. Subscriptions in the USA, Canada and Mexico should be sent to Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994–2133. All orders must be accompanied by payment.

The subscription price (excluding VAT) of volume 142, 2015 which includes print and electronic access is £1663 (US $2265 in the USA, Canada and Mexico); separate parts cost £130 or US $222 each (plus postage). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country’s rate. VAT registered subscribers should provide their VAT registration number. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Clinton, Tokyo 156, Japan. Periodicals postage paid at New York, NY and at additional mailing offices. POSTMASTER: send address changes in USA, Canada and Mexico to Parasitology, Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994–2133.

Information on back volumes, permissions and advertising is given on the inside back cover.

Internet access. This journal is included in the Cambridge Journals Online service which can be found at http://journals.cambridge.org/. For further information on other Press titles access http://www.cambridge.org/.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world’s forests. Please see www.fsc.org for information.

Parasitology

Back volumes. Vols. 1–71: Inquiries should be addressed to Wm. Dawson & Sons Ltd, Cannon House, Folkestone, Kent. Vols. 72 onwards: quotations for parts still in print may be obtained from Cambridge or the American Branch of Cambridge University Press.

Copying. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of $16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0031–1820/2015 $16.00.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISBN Tear Sheet Service. 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Claims for missing issues can only be considered if made immediately after receipt of the subsequent issue.

Advertising. Details of advertising in Parasitology may be obtained from the publisher.

Online submission. Authors are encouraged to submit their manuscripts online. Go to http://mc.manuscriptcentral.com/par/ to open an author’s account for Parasitology. Manuscript Central is helping to improve the speed of the publication process for the journal.

Front Cover illustration: Eimeria tenella: early-stage immature schizonts at 72h (A) and 2nd generation large immature and mature schizonts at 84h (B) in the lamina propria; 3rd generation schizonts in the epithelium of the crypt at 96h (E). From Matsubayashi et al. Vol.19(12) pp. 1553–1561.

CONTENTS

RESEARCH ARTICLES

Environment-related and host-related factors affecting the occurrence of lice on rodents in Central Europe
Michal Stanek, Jana Příbavová, Dana Mílková, Ima S. Khoikhova and Boris R. Kosnov

Genetic characterization of Toxoplasma gondii isolates from Portugal, Austria and Israel reveals higher genetic variability within the type II lineage
S. K. Verma, D. Ajzenberg, A. Rivera-Sanchez, C. Su and J. F. Dubey

Differences between chimpanzee and baboon gastrointestinal parasite communities
M. A. Elbert, W. C. McGrew and L. F. Marchant

The European eel may tolerate multiple infections at a low biological cost
Elvira Mayo-Hernández, Emmanuel Serano, José Perelíber, Almora Garcia-Ayala, Rocío Ruiz de Ybarra and Pilar Muñoz

4-Nitrobenzaldehyde thiosemicarbazone: a new compound derived from S-(-)-limonene that induces mitochondrial alterations in epimastigotes and trypomastigotes of Trypanosoma cruzi
Elizandra Aparecida Britta, Débora Botura Scariot, Hugo Falzoli, Cleuza Conceição da Silva, Tânia Lisboa, Renato Prado Dac Filho, Redouane Borsali and Celso Vataru Nakamura

Host genetic influences on the anthelmintic efficacy of papaya-derived cysteine proteinases in mice
Wenceslaus Luoga, Fadlul Mansur, Gillian Stepek, Ann Lowe, Ian F. Coke, David J. Buttle and Jokey M. Behnke
