Corrigendum

The cooperative breeding perspective helps in pinning down when uniquely human evolutionary processes are necessary—CORRIGENDUM

Judith Maria Burkart and Carel P. van Schaik

doi:10.1017/S0140525X15000072, Published online by Cambridge University Press, 9 March 2016.

Figure 1B in Burkart and van Schaik’s (2016) commentary on the target article by Richerson et al. (2016) is a duplicate of Figure 1A. The correct Figures 1A and 1B appear below. The commentary appears on pages 22 and 23 of the treatment.

![Figure 1 (Burkart & Van Schaik). The relationship between allomaternal care and (A) proactive prosociality and (B) social tolerance. Humans fit the general primate trend and do not represent an outlier.](image-url)
