The Aims and Scope of the Proceedings of the Nutrition Society are as follows:

**Aims and Scope**

Proceedings of the Nutrition Society publishes papers and abstracts presented by members and invited speakers at the scientific meetings of The Nutrition Society.

**Coverage includes**

- Cellular and molecular nutrition (including immunology)
- Nutritional genomics
- Diet selection and control of intake
- Macronutrient metabolism
- Molecular aspects of nutrition
- Functional foods
- Metabolism, growth and development
- Micronutrients and antioxidants
- Public health nutrition
- Companion animal nutrition
- Nutrition policy
- Sports and exercise nutrition
- Animal nutrition and metabolism
- Nutrition and behaviour
- Reproduction, growth and development
- Obesity and body composition
- Epidemiology
- Nutrition policy
- Sports and exercise nutrition
- Animal nutrition and metabolism
- Functional foods
- Metabolism, growth and development
- Micronutrients and antioxidants
- Public health nutrition
- Companion animal nutrition
- Nutrition policy
- Sports and exercise nutrition
- Animal nutrition and metabolism
- Nutrition and behaviour
- Reproduction, growth and development
- Obesity and body composition
- Epidemiology

The Proceedings of the Nutrition Society is published four times a year by Cambridge University Press on behalf of the Nutrition Society. Symposium papers are published in February, May, August and November and are available as hard copy or electronically.

Original Communications from individual meetings are published electronically only and comprise an OCE issue.

The journal is available on the Internet at: [cambridge.org/pns](https://www.cambridge.org/pns).

The Editors

J E Drew, Rowett Institute of Nutrition and Health, University of Aberdeen, UK

Symposia featured in this issue:

- Symposium 1: The food environment
  - Changing the food environment: the effect of trained volunteers on mealtime care for older people in hospital
  - Symposium 2: Drivers of food choice: food chain perspective
  - State-of-the-art for food taxes to promote public health
  - Symposium 3: Drivers of food choice at the individual level
  - Interventions to accelerate change towards a healthier diet

Postgraduate Symposium

- Is there a role for vitamin D in supporting cognitive function as we age?

Julie Wallace Lecture

- Does dietary nitrate say NO to cardiovascular ageing? Current evidence and implications for research

Royal Society of Medicine, London, 6–7 December 2016

Conference on ‘Diet, nutrition and mental health and wellbeing’

- Tryptophan supplementation and serotonin function: genetic variations in behavioural effects

- Ethnic disparities in the dietary requirement for vitamin D during pregnancy: considerations for nutrition policy and research

- Royal Society of Medicine, London, 6–7 December 2016

Conference on ‘Diet, nutrition and mental health and wellbeing’

- Public health and nutrition strategies to promote good mental health

- Hypophen supplementation and serotonin function: genetic variations in behavioural effects
