Volume 24 Number 1

Manifolds of smooth maps								
by Truong Công Nghê								1
Isometries of measurable functions		7.7			707		77	
by Michael Cambern								13
Force distribution on a slender body close to an in	terface							
by J. R. Blake and G. R. Fulford	•••	4.4			***			27
On a theorem of Nielsen								
by Saroop K. Kaul and Dale V. Thomps	son		22			10.0	4740	37
Manifolds of smooth maps II: transversality								
Manifolds of smooth maps II: transversality by Truong Công Nghê	4.6		16		• •	**	•	49
On k-quasihyponormal operators II								
by B. C. Gupta and P. B. Ramanujan		12		**	***			61
Mean value theorems and a Taylor theorem for ve	ector value	l functi	ons					-
by Rudolf Výborný	10.0	**	*/*	**	**	**		69
Periodic points and chaos for expanding maps of t	the interval							-
by Bill Byers		**	4.4	*.*	**		* * *	79
Asymptotic behavior of nonoscillatory solutions of	t a higher o	order	2					
functional differential equation								0.5
by Hiroshi Onose	(e.e.	**	1.5	**	5.5	**		85
Differential calculus in Frechet spaces								93
by Duong Minh Duc Arithmetic and analytic properties of paper folding		(6.4)	•/(•)		* 74	10/0		93
by M. Mendès France and A. J. van der								123
A class of projective Stone algebras	Foorten		**	**	• • •	**	• •	123
by Ivo Düntsch								133
On extensions of nilpotent torsion rings by semisir	mnle rings	**	15	**	**	**	• •	133
by Ismail A. Amin and Ferenc A. Szász								149
by Isman A. Finni and Perene A. Szasz	**	2.0	**	***	**	2.2		142
ABSTRACTS OF AUSTRALIAN PhD THESE	S							
The numerical solution of Fredholm integral equat	tions of the	second	kind					
by Ivan G. Graham								153
Free products of topological groups with central a	malgamati	on						
by M. S. Khan Systems of orthogonal designs and Quasi Clifford	218.8		* *					155
Systems of orthogonal designs and Quasi Clifford	Algebras							
by H. M. Gastineau-Hills				**	• •			157
Pre-neighbourhood A-semi-lattices, neighbourhood	d lattices, a	and the	ir					
associated continuous functions								
by Frank P. Prokop	2.5	•.•	*: *:	**	200	*.*	• •	159

#### BULLETIN OF THE AUSTRALIAN MATHEMATICAL SOCIETY

Editor: Sidney A. Morris Deputy Editor: K. R. Pearson
Honorary Editor: B. H. Neumann

#### **Associate Editors**

D. A. Holton Robert S. Anderssen Leon Simon D. C. Hunt G. Szekeres Alan L. Andrew P. E. Kloeden D. G. Tacon B. D. Craven J. S. Maritz Colin J. Thompson Brian A. Davey G. E. Davis Rodney Nillsen H. B. Thompson Sheila Oates-Williams Rudolf Vyborny J. R. J. Groves A. J. van der Poorten R. F. C. Walters James M. Hill

#### **Assistant Editors**

J. H. Rubinstein

Robert S. Anderssen M. S. Brooks

#### INFORMATION FOR AUTHORS

The BULLETIN of the Australian Mathematical Society aims at quick publication of original research in all branches of mathematics. Timely expository articles are also welcomed.

To ensure speedy publication, editorial decisions on acceptance or otherwise are taken quickly, normally within a month of receipt of the paper. Papers are accepted only after being evaluated by the Editor and an Associate Editor or another expert. Of course responsibility for the correctness of results published in the BULLETIN remains with the authors.

For a paper to be acceptable for publication, not only should it contain new and interesting results but also

- (i) the exposition should be clear and attractive, and
- (ii) the manuscript should be in publishable form, without revision.

Nevertheless some meritorious papers will have to be rejected because speed of publication involves space limitations.

Authors should submit THREE clean, high quality copies to

The Editor.

Bulletin of the Australian Mathematical Society,

Department of Pure Mathematics,

La Trobe University,

Bundoora, Victoria 3083, Australia

and should retain the original typescript of their papers, as material submitted to the BULLETIN will usually not be returned. Authors should note that each paper must include an abstract of not more than 200 words.

Details of editorial policy are given on the inside back cover.

#### **Abstracts of PhD Theses**

The BULLETIN endeavours to publish abstracts of all accepted Australasian PhD theses in mathematics. One restriction, however, is that the abstract must be received by the Editor within 3 months of the degree being approved.
