

# Parasitology

## CONTENTS

|  | PAGE |
|--|------|
| <b>Doenhoff, M. J. and Chappell, L. H.</b> <i>Preface</i> : Positive interactions between anti-infection drugs and the immune response: an emerging paradigm | S1   |
| <i>List of contributions</i>   | S3   |
| <b>Nüssler, A. K. and Thomson, A. W.</b> Immunomodulatory agents in the laboratory and clinic  | S5   |
| <b>Chappell, L. H. and Wastling, J. M.</b> Cyclosporin A: Antiparasite drug, modulator of the host-parasite relationship and immunosuppressant               | S25  |
| <b>Fallon, P. G., Cooper, R. O., Probert, A. J. and Doenhoff, M. J.</b> Immune-dependent chemotherapy of schistosomiasis                                     | S41  |
| <b>Maizels, R. M. and Denham, D. A.</b> Diethylcarbamazine (DEC): immunopharmacological interactions of an anti-filarial drug                                | S49  |
| <b>Targett, G. A. T.</b> Malaria: drug use and the immune response   | S61  |
| <b>Berger, B. J. and Fairlamb, A. H.</b> Interactions between immunity and chemotherapy in the treatment of the trypanosomiases and leishmaniases            | S71  |
| <b>Cox, F. E. G.</b> Interactions between chemotherapy and immunity in bovine theileriosis   | S79  |
| <b>Koziel, M. J. and Walker, B. D.</b> Viruses, chemotherapy and immunity  | S85  |
| <b>Zumla, A. and Croft, S. L.</b> Chemotherapy and immunity in opportunistic parasitic infections in AIDS  | S93  |
| <b>Doenhoff, M. J. and Davies, A. J. S.</b> Hypothesis: impaired immunity as a factor which contributes to the spread of drug-resistance                     | S103 |
| <b>Terry, R. J.</b> Endpiece   | S107 |
