Journal of Demographic Economics

Demographic variables such as fertility, mortality, migration and family structures notably respond to economic incentives and in turn affect the economic development of societies. *Journal of Demographic Economics* welcomes both empirical and theoretical papers on issues relevant to Demographic Economics with a preference for combining abstract economic or demographic models together with data to highlight major mechanisms.

The journal was first published in 1929 as *Bulletin de l’Institut des Sciences Economiques*. It later became known as *Louvain Economic Review*, and continued till 2014 to publish under this title. In 2015, it moved to Cambridge University Press, increased its international character and changed its focus exclusively to demographic economics.

Editor-in-chief: DAVID DE LA CROIX, Université catholique de Louvain

Co-editor: MURAT IYIGUN, University of Colorado

Editorial Assistant: SÉBASTIEN SCHILLINGS, Université catholique de Louvain

Associate Editors: RAOUF BOUCEKKINE, Aix Marseilles School of Economics
