

ERRATUM

RADIOCARBON DATING OF TECHNOLOGICAL TRANSITIONS: THE LATE HOLOCENE SHIFT FROM ATLATL TO BOW IN NORTHWESTERN SUBARCTIC CANADA – ERRATUM

Brigid Sky Grund and Snehalata V. Huzurbazar

DOI: <https://doi.org/10.1017/aaq.2017.53>, Published on behalf of the Society for American Archaeology by Cambridge University Press, 24 November 2017.

The author affiliations appearing in Grund and Huzurbazar (2017) contain errors. The correct affiliations for the authors are as follows:

Brigid Sky Grund ■ Anthropology Department, University of Wyoming, Department 3431, 1000 E. University Avenue, Laramie, Wyoming 82071-2001.

Snehalata V. Huzurbazar ■ Department of Biostatistics, West Virginia University, P.O. Box 9190, One Medical Center Drive, Morgantown WV 26506, USA.

Additionally, the sentence on page 5 reading, “Catastrophic melting events create palimpsest the upper layers of ice (Meulendyk et al. 2012), potentially introducing taphonomic bias” inadvertently omitted two words. The correct sentence is “Catastrophic melting events create a palimpsest in the upper layers of ice, potentially introducing taphonomic bias.”

The publisher apologizes for these errors.
