

Notes for authors on submitting a paper

Proceedings of the Royal Society of Edinburgh: Section A considers for publication papers in all areas of mathematics. Please note that this journal does not consider simultaneous submissions from the same author. If an author already has a paper under consideration then any further papers from that author (individually or as a co-author) will be returned unrefereed until the Editors have reached a decision regarding the first paper.

- Authors will be asked to state the primary AMS 2010 Classification Number and between three and six keywords. Secondary classifications are optional.
- Authors should nominate the most appropriate Editor for their paper.
- It is assumed that the author uploading the paper will be responsible for correspondence. A paper by more than one author should be approved in its entirety by the joint authors. An acknowledgement e-mail will be sent to all authors when the paper is added to the journal database. This will cite a reference number which will be used in all future correspondence regarding the paper.
- *Proceedings A* has a page limit of 25pp but may consider papers up to five pages longer to allow for variation in final typeset length. Authors must prepare their papers as concisely as possible. Longer papers can be difficult to review in a reasonable time and can be judged more harshly.
- Each paper must be accompanied by an abstract, in general not exceeding 200 words, which will be printed.
- References should be listed at the end of the paper in alphabetical order, numbered sequentially. References within the text should be indicated by numbers in square brackets.
- Authors are encouraged to use TeX typesetting software to prepare their papers. Please refer to the resources below for our class file and macro package.
- If you have any potential competing interests relating to your manuscript, please include a declaration statement in your main manuscript file disclosing these. Competing interests are situations that could be perceived to exert an undue influence on the content or publication of an author's work. They may include, but are not limited to, financial, professional, contractual or personal relationships or situations.

To submit your paper please visit our [online manuscript management system](#) and follow the instructions for uploading.

Once a paper has been accepted for publication, authors will be asked to supply the appropriate file. This should be a single file, with any relevant macros included in the preamble, and named after the article reference number (e.g. 150421-authurname.tex). Figures should be submitted as eps or pdf files at the same time as the code for the paper. Detailed instructions will be given on acceptance.

Proofs and offprints

Authors will be sent a galley proof of their paper by email in pdf format for checking. Offprints have been replaced by a pdf file of the final version of the paper, sent to the corresponding author shortly after print publication.

Copyright

The RSE now operates a 'hybrid' Open Access model for its journals, for accepted papers submitted on or after 1 April 2013. On acceptance, authors will be given the option of having their papers published either under a regular publication agreement or under a fully Open Access agreement.

The policy of the *Proceedings of the Royal Society of Edinburgh Section A: Mathematics* is that authors (or in some cases their employers) retain copyright and grant Cambridge University Press a licence to publish their work. In the case of gold open access articles this is a non-exclusive licence. Authors must complete and return an author publishing agreement form as soon as their article has been accepted for publication; the journal is unable to publish without this. Under the regular publication ('Green') option, authors will be asked to sign the Journal's standard Licence to Publish form. If authors choose the full (Gold') Open Access option, they will be asked to sign the alternative Open Access form and, upon payment of a one-off Article Processing Charge (APC) of GBP £1890 / USD \$3010 (in 2020), the final published Version of Record will be made freely available to all in perpetuity, and will be published under a [creative commons licence](#), enabling its free re-use and redistribution.

Please download the appropriate publishing agreement here:

<https://www.cambridge.org/core/journals/earth-and-environmental-science-transactions-of-royal-society-of-edinburgh/information/instructions-contributors>

Please note that publication under a fully Open Access agreement is part of the Cambridge Open Option.
