- Prof Nathan Sayre *Berkeley University of California, USA*
- Prof Shiping Chen *Chinese Academy of Sciences, China*

Cambridge Prisms is a series of journals dedicated to addressing real-world challenges. *Drylands* is one of the titles in the series.

Drylands aims to be a forum for rapid publication of cross-disciplinary science relating to the challenges of understanding and managing the world's drylands. *Drylands* will provide a home for high-impact, globally relevant opinions, reviews and original research on all topics associated with the natural sciences, engineering, social sciences, and management of global drylands.
