

HOW TO PLAY

1. The cards form a loop so can be started at any point.
2. Select any card from the pack of trail cards and work out the answer to the question.
3. Write the answer to your first card in any circle on the answer sheet.
4. From the pack of trail cards, select the card with the answer to your first card. This will be your second card.
5. Repeat the process until you have the loop on the answer sheet fully completed.

Proportion trail answer sheet

Answer

6.7

Question

You exchange
£60 for €72.

How many pounds
would you need
to exchange to
get €180?

Answer

150

Question
