INTRODUCTION

English is the official National language and medium of instruction in Nigeria. It is a compulsory subject offered at both the Basic Education Certificate Examination (BECE) and the Senior Secondary School Certificate Examination (SSSCE). It is therefore an extremely important subject, not only in the school context, but in the wider context of communicating effectively in Nigeria.

This *Excellence in English* Junior Secondary course has been carefully developed by international and Nigerian educational experts and offers the following components:

- a **Student's Book** written in accessible language to make learning interesting and challenging
- a **Teacher's Guide** to ensure teachers cover the English Studies Curriculum thoroughly, to help them prepare Daily Lesson Plans, and to help them teach effectively in the classroom.

The Student's Book and the Teacher's Guide are also available in digital format.

The purpose of the English Studies Curriculum

The Main Objectives of the English Studies Curriculum are to enable students to:

- develop the Basic Language Skills of Speaking, Listening, Reading, Comprehension, Writing, Grammar Structure and Literature
- enjoy a wide range of local and international texts written in English, including Fiction, Non-fiction and Poetry
- engage with their other school subjects more meaningfully
- communicate with people effectively in everyday life

- understand important national and international issues
- feel proud to be a citizen of Nigeria.

The role of the teacher

One of the principle duties of an English teacher is to prepare and present good lessons to his or her students. The teacher needs to be as well informed as possible on the English Studies Curriculum as outlined in the NERDC documents. This includes:

- being familiar with the Performance Objectives for each Theme and Topic, together with the appropriate Evaluation Tools
- being familiar with the most recent developments in student-centred teaching methodology
- selecting appropriate content materials
- making lessons interesting and motivating for students
- gathering resources required for the activities such as newspapers, magazines and CDs
- deciding on the best methods of presentation such as PowerPoints, workstations, videos, discussion groups, worksheets, question-answer sessions and debates
- keeping informed about issues and events in Nigeria and the rest of the world
- arranging outings and guest speakers from time to time.

The English Studies Scheme of Work

The Scheme of Work is derived from the English Studies Curriculum. It covers the whole Curriculum and ensures continuity in learning and progression of skills. It provides an outline of the content that needs to be covered over the year, organised on a weekly basis. This enables teachers to prepare their Daily Lesson Plans,

and to predict the amount of time needed to teach the required content.

The English Studies Scheme of Work for Junior Secondary 3 can be found on pages 23 to 25 of this Teacher's Guide. The sequence of the Scheme of Work is aligned with the Student's Book. Teachers should not be tempted to jump around. They should rather spend time carefully planning the term to ensure that they adhere to the Scheme of Work.

Daily Lesson Plans

To carry out effective teaching, the teacher must follow a written/typed plan for each lesson. This must include aims, objectives, resources, time frames, content for the lesson, activities, homework, evaluation and ideas to cater for students requiring extension or learning support (remedial).

Time allocation

The Nigerian school year is divided into three Terms. Each Term is divided into between 12 and 13 weeks and allows time for Revision. The recommended weekly time allocation is a minimum of five periods of 30–40 minutes each. This time frame may vary depending on the planning of your particular school. Students need to do regular revision at home in order to cope with the content and new terminology.

The *Excellence in English* Junior Secondary 3 Student's Book

The Student's Book is divided into three Terms with between 10 and 13 Modules in each Term. Each Module covers one week of work, as specified in the Scheme of Work. The first Module of each Term is usually revision of the work done the previous term (the first Module of Term 1 revises work done the previous year). The last Module of each Term is allocated to revision of the work done in that Term. These Modules can be used as Tests in the Evaluation process. Marks are provided for this purpose. One Practice Examination is provided at the end of the book, based on the Basic Education Certificate Examination for the Oyo State of Nigeria.

The *Excellence in English* Junior Secondary 3 Teacher's Guide

This Teacher's Guide assists the teacher with the planning and presentation of the material in the Student's Book. It offers Lesson Plans for each Module of the Student's Book.

Each Module in the Teacher's Guide is structured in the following way:

- It begins with a Weekly Lesson Plan. This is a table that is based on the Scheme of Work. It gives a summary of the Skills that will be taught during the week, organised on a day-to-day basis. It also provides the specific activities to use in the Student's Book, with the relevant page numbers.
- The Performance Objectives covered in the Module are listed under the Weekly Lesson Plan.
- Step-by-step Teaching Guidelines are provided for each activity in the Module, together with answers where applicable.
- Evaluation Guidelines are provided at the end of each activity. Details of the Evaluation process, together with Evaluation tools, are clearly outlined on pages 7 to 22 of this Teacher's Guide.

It is important to note that the Weekly Lesson Plan offers a suggested number of lessons for each Module. The number of lessons will vary according to the ability of the students in the class and their prior knowledge. The teacher's management of the class will have an enormous influence on their ability to adhere to the time frames. Teachers need to focus on effective discipline strategies. They will have fewer discipline issues if they are: punctual, well prepared, follow their Lesson Plans, keep their word (do not make empty threats), and consistently adhere to rules, especially rules related to mutual respect in the classroom.

A teacher of English is a professional instructor who facilitates, promotes and influences students to achieve the outcomes of the Curriculum and the Scheme of Work. It is the wish of the *Excellence in English* Junior Secondary authors that the students will, at the end of each course in the Junior Secondary series, attain a level of English proficiency that

will equip them to deal with challenges, realise their full potential, and be successful in what they hope to achieve.

Evaluation

Evaluation plays a central role in the teaching and learning of English. Evaluation has two purposes:

- It measures the level of each student's acquisition of the Performance Objectives specified in the NERDC Curriculum.
- It enables the teacher to monitor each student's development, to identify areas of weakness or strength, and to offer extra support or enrichment where needed.

There are two types of Evaluation that need to happen in the school year, namely Formative Evaluation and Summative Evaluation.

Formative Evaluation

Formative Evaluation happens continuously during class instruction. It can take the form of Teacher, Peer or Self-Evaluation.

- **Teacher Evaluation:** This can be Formal or Informal.
 - Informal Evaluation can be done throughout the year by the teacher's observation of each student's progress in classroom situations, for example while students are working in pairs and groups. A Record Book can be kept to record comments about each student based on these observations. The comments can identify both strengths and weaknesses, for example: 'Needs more practice with formation of Diphthongs, Reading fluency has improved this term.'
 - Formal Evaluation can be done during the term as follows: Teachers can evaluate Oral activities done in the classroom and take in and mark Essays, Comprehensions, Grammar Structure Exercises. The Revision Module at the end of each term can be used as a test. The Practice Examination can also be used as a test.

- **Peer Evaluation:** This can be done in the classroom in the form of group or pair work. Once an activity or exercise is completed, the partner or other members of the group can give constructive feedback.
- **Self-Evaluation:** This is similar to Peer Evaluation except that the student works individually to reflect on his or her work.

Summative Evaluation

Summative Evaluation is used at the end of the school year, in the form of an Examination. The Examination is essentially marked by the teacher, or another suitably qualified educator. The result of the Summative Evaluation decides whether a student can be promoted to the next school level.

This *Excellence in English* Junior Secondary course offers teachers clear guidelines for both Formative and Summative Evaluation in the following way:

- The Student's Book supplies:
 - Activities and Exercises that develop and meet all the Teaching Objectives of the NERDC Curriculum
 - a Revision Test at the end of each Term, with marks supplied
 - one Practice Examination that covers the work done during the year, and that prepares students for the Examination they will write at the end of the year.
- The Teacher's Guide supplies:
 - clear Evaluation Guidelines in each Module, to assess the Teaching Objectives in that Module
 - memoranda with answers for Speaking, Listening, Vocabulary, Grammar Structure and Comprehension Exercises and Activities
 - Teacher's Rubrics and Student's Self-Evaluation Checklists for Speaking, Reading, Summary and Writing Exercises and Activities.

Evaluation Tools

The Teacher's Rubrics and Student's Self-Evaluation Checklists appear on pages 8 to 22. To make these Evaluation Tools easy to use, we have given permission for them to be photocopied.

Student's Self-Evaluation Checklists

The Student's Self-Evaluation Checklists are for use by the student for Self- or Peer-Evaluation. These Checklists are particularly valuable for Writing activities. The Checklists can be used as follows:

- They can be given out at the beginning of a relevant activity, and the student can use them to help prepare and plan a task.
- They can be used to check a task before producing the final neat version.

Eight Student's Self-Evaluation Checklists are supplied. They are:

- Student's Self-Evaluation Checklist: Reading Aloud (page 9)
- Student's Self-Evaluation Checklist: Narrative Essay (page 9)
- Student's Self-Evaluation Checklist: Descriptive Essay (page 9)
- Student's Self-Evaluation Checklist: Argumentative Essay (page 10)
- Student's Self-Evaluation Checklist: Expository Essay (page 10)
- Student's Self-Evaluation Checklist: Article (page 11)
- Student's Self-Evaluation Checklist: Summary (page 11)
- Student's Self-Evaluation Checklist: Formal and Informal Letter (page 11)

Teacher's Rubrics

The Teacher's Rubrics are for use by the teacher only. They can be used to evaluate Oral and Writing Activities.

Ten Teacher's Rubrics are supplied. They are:

- Teacher's Rubric: Reading Aloud Skills (page 12)
- Teacher's Rubric: Listening and Speaking (Oracy Skills) (page 13)
- Teacher's Rubric: Speech (page 15)
- Teacher's Rubric: Narrative Essay (page 16)
- Teacher's Rubric: Descriptive Essay (page 17)
- Teacher's Rubric: Argumentative Essay (page 18)
- Teacher's Rubric: Expository Essay (page 19)
- Teacher's Rubric: Article (page 20)
- Teacher's Rubric: Summary (page 21)
- Teacher's Rubric: Formal and Informal Letter (page 22)

Here is an example of how to use the Teacher's Rubric to evaluate a Narrative Essay:

- There are six columns. The first column gives you the criteria you need to evaluate.
- The five columns on the right help you identify the level at which the student has achieved these criteria.
- The teacher needs to allocate a mark for each criterion, and then add up all the marks to make a total out of 40 marks.

In the following example, which a teacher used to evaluate an essay written by a student, she has chosen a mark for each criterion and circled it. The total for this essay comes to 28 marks out of 40 marks.

Note: The Basic Education Certificate Examination allocates a total of 10 marks for the Writing Activity. If teachers wish to follow this mark structure, they can divide the total and the mark by 4 to get a mark out of 10. So a mark of 28 out of 40 would be 7 marks out of 10 marks, or 70%.

Therefore, select a few students. Ask them to prepare two or three paragraphs from the Comprehension text for reading aloud. Give them the criteria from the Checklist: Reading Aloud on page 9 of this Teacher's Guide. Explain that you will be using these criteria to evaluate their reading aloud skills. Call them up individually and ask them to read to you. You can use the Rubric: Reading Aloud on page 12 of this Teacher's Guide to evaluate their reading. Record the mark in your Record Book.

Pen Pals: Past And Present

Welcome to Youth Radio. Today we're going to find out about pen pals. Azuka, what is a pen pal?

Azuka: A pen pal is a person who you have not met, but you form a friendship with them by writing letters. A pen pal usually lives far away in another country, city or town.

Interviewer: Do people still write letters these days?

Azuka: In the past people would write letters or postcards and send them by snail mail to their pen pals. They would sometimes add printed photographs. However, today people mostly use email and social network sites to correspond with their pen pals. Sometimes they send letters.

Interviewer: How does that work?

Azuka: People can find pen pals through the Internet on Facebook or other social networking sites. Then people correspond through email or Facebook. They post photos online.

Interviewer: How has this changed the way people communicate?

Azuka: In the past, people would sometimes have to wait many weeks before they received a letter in the post from their pen pal. However, today by using the Internet, people receive letters a few moments after they are sent and can reply immediately.

Resources

Student's Book (pp. 27–35)

Blackboard, dictionaries, pictures of road signs.

Listening And Speaking

Before commencing the activities, explain to students that /f/ and /p/ are unvoiced sounds and practise saying words with these sounds out loud with students. Ask students to put their hands on their throats and feel their voice boxes.

Activity 1 (SB p. 27)

Students must practise saying these words. They must think about the position of the /f/ sound in each word. Does it come in the beginning, middle or end of the word?

fine, thief, feast, wafer, favourite, face, fear, proof, leaf, fast, surf, fin, fine, rifle, deaf

Activity 2 (SB p. 27)

Students must practise saying these words that have a /p/ sound. They must say if it comes in the beginning, middle or end of the word.
popping, pen, pupil, pit, rope, puppy, loop, plot, pig, pony, plop

You can ask students to say the words one after the other very quickly, as a fun game.

Activity 4 (SB p. 28)

Students must practise saying the sentences that have words with the /p/ sound.

Activity 5 (SB p. 28)

Talk about cars and the names of different car parts. You can make this interesting by asking students to name their dream car.

- On their own students must look at the list of car parts. They must use the list to label the diagrams. They must write their answers like this: 1 – windscreen.
- Students must work in pairs. One person covers the table with the names for the parts of a car. The other person quizzes the partner to name the parts of a car. They must swap partners and repeat this activity.

Activity 6 (SB p. 29)

Read the following listening text about caring for a car. Students will hear the following words and phrases in the listening text. Discuss the meaning of these words and phrase with the class.

- fluid – a substance that has no fixed shape and yields easily to external pressure; a gas or (especially) a liquid
- brake fluid – fluid used in a hydraulic brake system
- air pressure – pressure exerted by air
- oil – a liquid derived from petroleum, especially for use as a fuel or lubricant
- transmission fluid – fluid used in vehicles with self-shifting or automatic transmissions
It is typically coloured red or green to distinguish it from motor oil and other fluids in the vehicle
- wheel alignment – adjusting the angles of the wheels so that they are set to the car maker's specification

Caring For A Car

It's the driver's responsibility to check that his or her car is roadworthy and in good working condition. Cars that are not well looked after can be dangerous for the driver, passengers and other traffic on the road.

A car needs the different parts checked regularly. Some checks need to be done every time you fill your petrol with cars. Other checks need to be done a few times a year.

When you fill your car with petrol always check the fluids in the engine. These can be checked by looking in the different parts of the engine. Check the following fluids:

- oil
- water in the radiator
- transmission fluid
- brake fluid
- water for the windshield wipers

Also, check the tyre pressure in the tyres and fill the tyres with air if necessary.

Every ten thousand kilometres your car needs to be serviced. The following need to be checked at each service:

- the tyres – to check that the treads haven't worn thin
- the air filters – to see if they need to be replaced
- the tyres need to be rotated so that they wear evenly
- the brakes and the brake fluid
- the wheel alignment – to check the wheels can drive straight

Activity 7 (SB p. 29)

Remind students of the value of mind maps and discuss the example in the Student's Book with them. Students must then copy the mind map into their exercise books.

Activity 8 (SB p. 29)

Students must listen to as you read the listening text and then fill in the mind map with the information that they hear. Allow time for students to work on the mind maps.

Evaluation

Teacher Evaluation: Teachers can use the Rubric: Listening and Speaking (Oracy Skills)/ Identification, Pronunciation, Stress and Intonation, Comprehension and Responding on page 13 of this Teacher's Guide.

Vocabulary Development

Stella Mbachu

Stella Mbachu was born on 16 April 1978 in Nigeria. Stella enjoyed playing football with her brothers in the village where she grew up. One day, a man from her village watched her playing. He approached her and advised her to train with a new club that had just started and that was training in the stadium. At first Stella chose not to attend practices as she would help her mother after school. One day, though, she decided to go and she played in her everyday clothes, as she did not have any football kit. The coaches were impressed with her talent and they approached the principal of her school, asking whether she could join their club.

When Stella was in secondary school, she was called to play for Nigeria. She made sure that whenever she was on the field, she played the very best she could.

Through her commitment, training and self-discipline, Stella has reached great heights in football. She has made her country proud!

What Is The Media?

When you look in a dictionary, it will tell you that 'media' is the term used for the main means of mass communication. Information is relayed to people through the TV, radio, newspapers and the Internet. The media can contain messages that are very subjective. In other words, they tell you about certain feelings, opinions and tastes. This is why it is important for all of us to be careful what we believe is written or said in advertisements or even in the news. The people who create these messages think carefully about what they want people to believe in, and word their messages accordingly.

Have you ever wondered why there are so many magazines or newspapers for sale? It is because not everyone has the same interests, so the publishers will target or aim their magazine or newspaper to a certain group only.

What is the reason for the media to mass communicate ideas to us? They want to either sell you a product or a service, or an idea. Take care you do not fall prey to the mass media!

Answers

Educate Me!

No school? Impossible! We all need to go through the process of school and then further studies, but it is hard work and tiring and we often just wish we could stop. This is not a possibility we should consider. Without schooling, we would all be uneducated and, in today's world, an uneducated person is someone who is often not treated with respect in various positions in businesses. With an education and a degree, people are able to get better-paid jobs, which leads to a better living experience. Since we live in a world that seems to be constantly on the move and changing, with new technologies, we need to make sure we do not get left behind. With an education, we will be able to move with the times and adapt to the changes that are constantly taking place, and therefore stay in touch with the world. If we are educated, we are more aware of the importance of health care and when to go to a doctor or hospital, as we are more informed about basic health care, medical aids and our basic hygiene. Being educated will also help you avoid being taken advantage of by people who try to get illiterate people to sign false documents. This form of abuse from people needs to stop. How can you help? Get an education!

These revision exercises are based on the work done in the second term as well as the content covered in the examination. Give students time to work through the exercises, referring to their textbooks if necessary. Then discuss the answers with the class. Remember that the aim of doing so is not simply to ensure that students have the correct answers, but to clear up any confusion that they may have, so take the time required to explain anything that they do not understand.

Vocabulary Development

Activity 3 (SB p. 147)

In this pre-reading exercise, students must match words from the first column of the table with their meanings. The activity is intended to introduce some of the vocabulary used in the reading text. Allow students to consult their dictionaries if necessary.

Answers

Reading And Comprehension

Activity 4 (SB p. 147)

These questions are intended to introduce the topic of ethnic differences. Allow enough time for a thorough group discussion. Students' opinions will vary. It is important for them to be able to express their feelings on what may be a controversial issue for them, but they should do so in a way that is respectful of others.

Answers

Students' opinions will vary.

Activity 5 (SB p.149)

Students should read the statements before rereading the text for a second time on their own. This is a detailed reading because they need a clear understanding of the content in order to be able to answer the questions.

They discuss the answers with a partner before writing down their own answers. Discuss the answers as a class, asking individuals to give their answers for each question. Instead of saying yourself whether the answer is correct or incorrect, ask the rest of the class if they agree with their classmate's answer. Encourage participation from all members of the class.

If a statement is false, students must reformulate it so that it is true. Again, allow for discussion of different possibilities rather than simply reading out the correct answers. Remind students that there is often more than one possible answer.

Answers

Where a statement is false, a possible reformulation is given, but this is often not the only correct answer.

- a) False. We are familiar with the customs of the culture that we grow up in, but the customs of other ethnic groups are usually unfamiliar to us.

- b) False. Gafar was not a member of the Igbo tribe.
- c) True
- d) True
- e) False. Nwanne's father was not prepared to negotiate about any of the items on the list.
- f) False. Gafar believed that it would take him many years to save up enough money.
- g) True

Reading Evaluation

Select a few students who have not yet been evaluated for reading aloud skills. Ask them to prepare two or three paragraphs from the Comprehension text for reading aloud. Give them the criteria from the Checklist: Reading Aloud on page 9 of this Teacher's Guide. Explain that you will be using these criteria to evaluate their reading aloud skills. Call them up individually and ask them to read to you. You can use the Rubric: Reading Aloud on page 12 of this Teacher's Guide to evaluate their reading. Record the mark in your Record Book.

Grammar

Activity 6 (SB p. 149)

These multiple-choice questions allow students to revise the content covered in the Term 2 examination. Give them time to work through the questions, referring to their textbooks if necessary, and then discuss the answers with the class. Make use of the opportunity to revise and consolidate the grammar that they have learnt. If there is general confusion about a particular aspect, teach it again and give a follow-up exercise to ensure that students now understand it.

Refer them to the information on writing an Argumentative Essay on page 56 of the Student's Book. Remind them to use the appropriate register and tone, and to use the Self-Evaluation Checklist to check their work before submitting it.

Allow students to finish the writing process for homework, and then let them swap first drafts with a partner. Let them discuss each other's work, suggesting corrections and improvements. They then write out the final draft neatly and hand it in to you for marking.

Listening And Speaking

Activity 1 (SB p. 152)

In this review of Monophthongs, students must complete a table by writing down examples of words that contain specific phonemes of

Monophthongs. Encourage them to include at least one word (preferably more) that has two or more syllables in each row. Let them work with a partner to read their examples aloud and check that they do indeed include the desired phoneme.

Students then work on their own to make sentences using the five examples for any four of the Monophthongs in their tables. They pair up again with a partner and practise reading each other's sentences aloud.

Answers

Answers will vary.

Activity 2 (SB p. 152)

Read the following listening text slowly and clearly once, then allow students to read the statements in the Student's Book once before reading the text to them a second time. Give them a few minutes to decide if the statements are true or false.

The Need For A Peaceful Society

Conflict between countries as well as between different ethnic groups within a country usually leads to aggression, violence, war and death,

devastating the lives of millions of people. On a smaller scale, conflict within families and communities is often less obvious to outsiders, but just as devastating for the people who are caught up in it.

We all long for peace in our homes, schools, neighbourhoods and countries, but it sometimes seems like an impossible dream. However, many people believe that peace is possible and they work towards this ideal in everything that they do. Their goal is to create societies where it is safe for children to attend school, where women are safe in their homes and workplaces, and where people are safe in their communities, regardless of their ethnic identity, religious beliefs and sexual orientation. They strive for harmony between people and non-violent solutions to problems, believing that peace is essential for stability and development.

What can you do to create peace where you live? Mahatma Gandhi, who was nominated five times for the Nobel Peace Prize, has this advice for you: 'Be the change that you wish to see in the world.' We tend to believe that other people are responsible for conflict and thus that they should take responsibility for creating peace, but the truth is that we can only change our behaviour. Peace begins with you.

Reading And Comprehension

Activity 3 (SB p. 153)

This is a pre-reading activity to introduce students to the text. Give them a limited time in which to follow the instructions (look at the title of the story, the picture that goes with it and the first paragraph, and then to decide if the statements are true or false) in order to ensure that they do not do a detailed reading at this stage.

Come back to students' answers after reading the text for the first time and decide how accurate they were. When discussing the answers, ask whether students agree with the answers suggested by their classmates, and to explain why or why not.

Answers

- a) False
- b) True
- c) False

Activity 4 (SB p. 154)

Students should read the text carefully, and then read through the multiple-choice questions before reading the text a second time. You could allow them to discuss the questions with a partner before making their decisions.

Answers

- a) A. We use the word 'conflict' to describe a situation in which people disagree about something or don't get on with each other.
- b) D. Conflict becomes more of an issue during adolescence.

- g) A. When expressing your point of view, you should speak confidently, but with respect.

Vocabulary Development

Activity 5 (SB p. 155)

Read through the list of words and their meanings with students. Let them work in pairs to match each word with the correct meaning. Allow them to consult their dictionaries if necessary. In the class discussion that follows,

ask students for their answers, and then ask the rest of the class if they agree with their classmates. Encourage discussion and participation rather than simply giving students the correct answers.

You could ask students to learn the words for a spelling test the following day.

Let them work on their own to do the exercises. If necessary, they can finish them for homework.

Use the class discussion of the answers to determine if there are any areas of confusion. In a follow-up lesson, clarify any misunderstanding. Give students further practice exercises to ensure that they have mastered this grammar.

Writing

Activity 12 (SB p. 160)

Activity 2 (SB p. 161)

Read the following listening text slowly and clearly once, then allow students to read the multiple-choice questions in the Student's Book once before reading the text to them a second time. Give them a few minutes to choose the correct answers.

Peer Pressure

Your peers are people of the same age with whom you spend time. They can influence you in positive ways, for example, by supporting and encouraging you to achieve your aims in life. However, they can also have a negative influence on you. When others your age want you to act in a particular way so that you are 'cool' and fit in with the group, we say that they are putting peer pressure on you.

Peer pressure can affect the choices that you make. For instance, some teenagers experiment with smoking, alcohol and drugs because their friends are all doing so, and they don't want to be seen as different or not part of the group. Soon, the experimentation becomes a habit and then an addiction, and their lives are ruined.

Everyone experiences peer pressure, no matter how old they are or what stage of life they are in, but it is usually more of a problem for teenagers. Most teenagers desperately long to feel that they fit in and so they do things that they would not normally choose to do just so they are like everyone else. Sometimes this behaviour is fairly harmless, for example, wanting to wear the 'right' clothes so that you look the same as everyone else, but it can lead to real problems. If you bunk school because your friends are all doing it, for instance, you could get into trouble with the school and your parents. Tempting though it is to follow the herd, rather think about the possible consequences of your actions first.

Answers

- a) D. A peer is a person who is about the same age as you and spends time with you.
- b) B. Peer pressure is when someone wants you to do the same as everyone else in the group.
- c) D. Sometimes teenagers experiment with smoking, drugs and alcohol because their friends are doing it and they want to fit in.
- d) C. Peer pressure is a problem for everyone.
- e) A. The last sentence of the listening text means that we should think about what we are considering doing before deciding to do it.

Reading And Comprehension

Activity 5 (SB p. 163)

As a pre-reading activity students must discuss the questions with a partner.

Answers

Answers will vary.

Activity 6 (SB p. 163)

Students should read the text carefully. They should be familiar with the words in bold that they encountered in Activity 3 as well as the phrases that they discussed in Activity 4. Help them if there is something that they do not understand.

Activity 7 (SB p. 164)

Students should read the statements before rereading the text for a second time on their own. This is a detailed reading because they need a clear understanding of the content in order to be able to answer the questions.

They discuss the answers with a partner before writing down their own answers.

Discuss the answers as a class, asking individuals to give their answers for each question. Instead of saying yourself whether the answer is correct or incorrect, ask the rest of the class if they agree with their classmate's answer. Encourage participation from all members of the class.

If a statement is false, students must reformulate it so that it is true. Again, allow for discussion of different possibilities rather than simply reading out the correct answers. Remind students that there is often more than one possible answer.

Answers

Where a statement is false, a possible reformulation is given, but this is often not the only correct answer.

- a) True.
- b) False. Weight is viewed differently in different cultures.

- g) False. Ifemelu drank orange juice.

Grammar

These revision exercises give students the opportunity to assess and consolidate their knowledge about Verb Tenses and Modal Verbs (SB pp. 16, 40, 47) and Adverbs (SB p. 23). Encourage them to refer to the information on the specified pages in the Student's Book for each topic, not only to find the answers but also to review what they already know. Let them work on their own to do the exercises.

Use the class discussion of the answers to determine if there are any areas of confusion. In a follow-up lesson, clarify any misunderstanding, and then give students further practice exercises to ensure that they have mastered this grammar.

Activity 8 (SB p. 165)

Students must choose the best options of the Verbs that are given as possible answers to complete the sentences.

Writing

Activity 10 (SB p. 166)

Students use the planning, writing and editing steps that they have learnt to write a Descriptive Essay on ONE of the topics, both of which relate to the theme of this module (peer pressure).

Remind them to use the Self-Evaluation Checklist Writing/Descriptive Essay to check their work when they have completed it.

Allow students to finish the writing process for homework, and then let them swap first drafts with a partner. Let them discuss each other's work, suggesting corrections and improvements. Remind them to ensure that they have followed the guidelines given in the box on pp. 166–167 of the Student's Book. If necessary, they should go back and make changes to their work so that the language is clear and vivid, there are Figures of Speech or strong imagery that makes the writing more interesting, and they have mentioned all five senses and referred to relevant feelings or emotions. They then write out the final draft neatly and hand it in to you for marking.

Answers

Figure Of Speech	Explanation	Example

Literature

Activity 11 (SB p. 167)

This activity should help students to understand the difference between Figurative Language and the Literal meaning of language. Let them work with a partner to choose the correct caption for each cartoon. Follow this up with a class discussion of Figurative and Literal Language to make sure that students do indeed understand the difference. If there is time, allow them to work in pairs to illustrate the Literal meanings of other examples of Figurative Language. Display their work in the classroom.

Answers

- a) It costs an arm and a leg = It's very expensive.
- b) It's raining cats and dogs = It's raining very heavily.
- c) I have a frog in my throat = My voice is a bit hoarse.

Activity 12 (SB p. 168)

This activity revises eight types of Figures of Speech. Allow students to work with a partner to match each Figure of Speech in the first column with the appropriate explanation and example in the other two columns. Let them refer to a dictionary of the Student's Book if they need to remind themselves about the different Figures of Speech.

Figure Of Speech	Explanation	Example
Assonance	The repetition of a Vowel sound	Tyger, Tyger, burning bright in the forest of the night [William Blake]
Personification	When human characteristics or qualities are given to something that is not human	The branches of the tree danced in the wind.
Onomatopoeia	A word that imitates the sound associated with an object or action	Snap, crackle and pop
Irony	The use of words to convey the opposite of their literal meaning	'Goodness, you could win a prize for the tidiest room,' Mom said to Simisola as she looked at her messy room in disgust.

Listening And Speaking

Activity 1 (SB p. 169)

This activity revises Consonant sounds and phonemes. Give students time to work through the activity, referring to their textbooks if necessary. Then discuss the answers with the class. Remember that the aim of doing so is not simply to ensure that students have the correct answers, but to clear up any confusion that they may have, so take the time required to explain anything that they are not sure of.

Reading And Comprehension

Activity 3 (SB p. 170)

Activity 4 (SB p. 170)

Students pair up with a partner to read this interview aloud.

Activity 5 (SB p. 170)

Students read the entire article again carefully on their own, then write down their answers to the questions in their exercise books.

Once students have completed the activity, ask for volunteers to give their answers. Instead of saying whether each answer is right or wrong, invite discussion from the rest of the class.

Answers

- Ade was three years old when his family left Nigeria.
- Ade started using a wheelchair when he was a teenager because his legs had been crippled or paralysed by polio contracted when he was a baby and he couldn't walk unassisted.
- Any of the following two ways in which Ade has benefitted from sport:

- Sport makes him feel empowered.
 - Sport gives him independence.
 - Sport allows him to express himself.
 - Sport has made him physically stronger.
 - The skills that he learnt while doing sport helped him to be a more competent wheelchair user in everyday life.
 - Sport has enabled him to do new things and meet new people, and it has opened up many doors for him.
- It is surprising that polio is still a problem in Nigeria because there is a vaccine for it and it is a relatively rich country, which suggests that there should not be anything stopping it from vaccinating all babies and getting rid of the disease.
 - Students' answers will vary. Accept any reasonable, well-justified answer. (The real reason is that polio is now mainly found in the north of Nigeria, in places like Kano and Sokoto, which are very hard to reach. People in these nomadic communities cross the border between Niger and Nigeria a lot. As a result, it can be hard for medical staff administering vaccinations to find them, and then when they do, it is difficult to determine which of these people have already been vaccinated. In addition, a rumour was spread in Nigeria in 2003 that the polio vaccine contained a contaminant that caused children to become infertile and that it was a conspiracy to restrict the population in Nigeria. The government stopped the vaccination campaign for nine months while

- the vaccine was checked. In this time, the disease got completely out of control.)
- f) The 2012 London Paralympics inspired young disabled people by giving them disabled role models. Previously they had mostly only had non-disabled role models.

Reading Evaluation

Select a few students who have not yet been evaluated for reading aloud skills. Ask them to prepare two or three paragraphs from the Comprehension text for reading aloud. Give them the criteria from the Checklist: Reading Aloud on page 9 of this Teacher's Guide. Explain that you will be using these criteria to evaluate their reading aloud skills. Call them up individually and ask them to read to you. You can use the Rubric: Reading Aloud on page 12 of this Teacher's Guide to evaluate their reading. Record the mark in your Record Book.

Grammar

These revision exercises give students the opportunity to assess and consolidate their knowledge about Pronouns (SB pp. 113, 120–121, 133), Prepositions (SB p. 47) and Conjunctions (SB p. 56), the Active and Passive Voice (SB p. 139), and Direct and Indirect Speech (SB p. 127). Encourage them to refer to the information on the specified pages in the Student's Book for each topic. They should look for the answers, but also revise the rest of the content. Let them work on their own to do the exercises. If necessary, they can finish them for homework.

Use the class discussion of the answers to determine if there are any areas of confusion. In a follow-up lesson, clarify any misunderstanding. Give students further practice exercises to ensure that they have mastered this grammar.

Students use the planning, writing and editing steps that they have learnt to write their letter.

Allow them to finish the writing process for homework, and then let them swap first drafts with a partner. Let them discuss each other’s work, suggesting corrections and improvements. Students should pay particular attention to the correct layout for the letter type that they have chosen to write. They then write out the final draft neatly and hand it in to you for marking.
