

Microscopy TODAY

Volume 30 Number 1 2022 January

Wood sample scanned at 280 nm voxel size - vessels are color-coded to thickness.

TESCAN UniTOM HR

The first micro-CT system to provide sub-micron spatial resolution and high temporal resolution dynamic CT in a single, highly versatile system.

**What can you do with TESCOAN UniTOM HR?
Contact us today to find out:**

Expand your Knowledge of Microscopy with MSA Membership!

Whether your primary focus is in light, electron, or scanning probe microscopy, or the biological or the physical sciences, MSA takes your knowledge to the next level!

Members Receive:

- A personal subscription to MSA's official journal, *Microscopy and Microanalysis*, and MSA's popular bi-monthly magazine, *Microscopy Today*.
- Peer Networking through the Society's Focused Interest Groups and Local Affiliated Societies.
- Discounts on books, journals and other educational materials.
- MSA Awards Programs, Scholarships, Speaker Opportunities, and more!

DiATOME

the incomparable Diamond Knife for all fields of research...

DiATOME Diamond Knives are the premier knife for biological and materials applications, compatible with all ultramicrotomes.

For decades, researchers have relied on DiATOME Diamond Knives superior quality, reliability, and durability. And with proper use, they require far less resharpening than any other knife, making them economical as well. Resharpened DiATOME knives undergo the same stringent optical checking and sectioning test as new knives. The same flawless quality is guaranteed.

Applications are numerous and include sectioning of hard or soft industrial samples, embedded biological samples, alternating ultrathin/semithin, and frozen hydrated samples. Please see our website for a complete applications guide.

Get them from **THE** source...

NEUROSCIENCE

Micro-Optical Sectioning Tomography to Obtain a High-Resolution Atlas of the Mouse Brain Anan Li, Hui Gong, Bin Zhang, Qingdi Wang, Cheng Yan, Jingpeng Wu, Qian Liu, Shaoqun Zeng, Qingming Luo

Britton Chance Center for Biomedical Photonics, Wuhan National Laboratory for Optoelectronics—Huazhong University of Science and Technology, Wuhan 430074, P. R. China.

CRYO

A single slice of a tomogram of an aldehyde fixed and sucrose infiltrated cryosection with a 3D reconstruction. Erik Bos and Peter J. Peters, Netherlands Cancer Institute, Amsterdam. (see: J. Lefman, P. Zhang, T. Hirai, RM. Weis, J. Juliani, D. Bliss, M. Kessel, E. Bos, P.J. Peters, S. Subramaniam: Three-dimensional electron microscopic imaging of membrane invaginations in Echerichia coli overproducing the chemotaxis receptor Tsr. J. Bacteriol. 2004 Aug; 186(15): 5052-61.)

MATERIALS

ABS, stained with OsO4, sectioned at room temperature with the ultra sonic knife, section thickness 50nm. Note the almost perfect spherical shape of the large rubber particles and the preservation of the inclusions inside. Also the smaller dense rubber particles are well preserved. B.Vastenhou, Dow Benelux N.V. Terneuzen, The Netherlands.

QC TESTING

Bulk and Custom Chemical Manufacturing...

At Electron Microscopy Sciences, we are ready to customize your product and create the solution that is right for you. From formaldehyde to research reagents, we can customize any chemical to meet your specifications. We have the capacity to supply runs as small as 2500 units or as large as 1 million units, from 1 gram to 55 gallon drums.

Chemical Customization...

Electron Microscopy Sciences will customize chemicals to best fit your lab's unique protocols and recipes. Our lab can follow your specific formulas, or generate one to meet your needs. We manufacture chemicals right in our facility in Hatfield, PA.

Contract Services...

Formulating — From concept to product distribution, EMS can make it. We have the capabilities and expertise in the manufacturing of not only research chemicals, but dermatological and pharmaceutical products.

Manufacturing — EMS manufactures your product in our 30,000 square foot facility equipped to take on even the most demanding production schedules. Our equipment can manufacture liquids, creams, pastes, gels, sticks, solutions, and lotions in any batch size imaginable.

Quality Assurance and Quality Control — We are fully certified and FDA registered and strictly adhere to GMP guidelines.

Warehousing — Our warehouse is ready to package, store, and ship your products. We provide a quick turnaround so you can get your products as quickly as possible.

Everything a lab could need...

Electron Microscopy Sciences also offers a comprehensive range of lab supplies and equipment for all fields of microscopy, histology and general laboratory research.
