1 From Health in All Policies to Health for All Policies: the logic of co-benefits
   1.1 Introduction: beyond Health in All Policies ... 1
   1.2 Attaining the SDGs: the role of health sector co-benefits ... 6
   1.3 Summary of subsequent chapters ... 11
   1.4 Conclusion ... 15

2 Finding and understanding co-benefits
   2.1 Introduction ... 19
   2.2 The two routes to co-benefits ... 23
   2.3 Identifying co-benefits of health systems and policies ... 28
   2.4 Identifying co-benefits of health status ... 29
   2.5 Conclusion ... 31

3 Politics and governance for co-benefits
   3.1 Politics and governance: achieving the co-benefits ... 34
   3.2 Getting to a win-win: identifying practical co-benefits ... 35
   3.3 Salience and conflict: making policy in complex governments ... 36
   3.4 Governance: overcoming challenges of implementation and sustainability ... 43
   3.5 Conclusion ... 50
4 Next steps: making Health for All Policies
   4.1 Introduction
   4.2 Understanding co-benefits
   4.3 Attaining co-benefits: politics
   4.4 Implementing and sustaining co-benefits: governance
   4.5 Conclusion: key takeaways

5 SDG1, eliminating poverty: improvements to health coverage design as a means to create co-benefits between health system and poverty Sustainable Development Goals
   5.1 Introduction
   5.2 Background
   5.3 How can we measure the effects of out-of-pocket payments on financial hardship and poverty?  
   5.4 How do health systems influence the risk of poverty and financial hardship?  
   5.5 Country case studies
   5.6 Conclusion

6 SDG4, education: education as a lever for sustainable development
   6.1 Introduction
   6.2 Background
   6.3 Education as a structural determinant of health
   6.4 Health as a proponent of education
   6.5 Improving the capacity of people in vulnerable situations through health literacy
   6.6 The health workforce as a source of educational capacity
   6.7 The way forward to achieve more co-benefits of health and education for all

7 SDG5, gender equality: co-benefits and challenges
   7.1 Introduction
   7.2 Background
   7.3 Pathways between health action and co-benefits
   7.4 Case study 1: health action creating co-benefits to gender equality and women’s health
7.5 Case study 2: health care workers during the COVID-19 pandemic in Brazil and gender (in)equality 116
7.6 Case study 3: gender equality in the health science system 119
7.7 Conclusions 122

8 SDG8, promoting decent work and economic growth: health policies for good jobs 130
8.1 Introduction: what is SDG8 and how can health policy contribute? 130
8.2 Background 131
8.3 Causal pathways 132
8.4 Governance and politics: conceptual issues 135
8.5 Country case study: tackling health worker shortages and maldistribution in Romania 138
8.6 Conclusion 145

9 SDG9, industry, innovation and infrastructure: technology and knowledge transfer as means to generate co-benefits between health and industrial Sustainable Development Goals 149
9.1 Introduction 149
9.2 Background 151
9.3 Causal pathways between health action and SDG9 co-benefits 153
9.4 Case study 1: HPV vaccine technology transfer in Brazil 156
9.5 Case study 2: the Mozambican Pharmaceutical Ltd: a South–South cooperation project 161
9.6 Conclusion 165

10 SDG10, reduced inequalities: the effect of health policy on inequalities: evidence from South Africa 172
10.1 Introduction 172
10.2 Background 173
10.3 Causal pathways between health actions (policy) and SDG10 (reduce inequalities) co-benefits 174
10.4 Country case study 177
10.5 Discussion, conclusion and outlook 183
11 SDG11, sustainable cities and communities: making cities healthy, sustainable, inclusive and resilient through strong health governance 193
  11.1 Introduction 193
  11.2 Background 195
  11.3 Causal pathways 196
  11.4 Case study 1: Youth at a Healthy Weight (JOGG) initiative in Dutch cities 201
  11.5 Case study 2: Superblocks in Barcelona 207
  11.6 Conclusion 211

12 SDG13, climate action: health systems as stakeholders and implementors in climate policy change 219
  12.1 Introduction 219
  12.2 What is SDG13 and how can health policy contribute? 220
  12.3 Causal pathways between health systems, climate change health action and co-benefits 222
  12.4 Governance and politics: conceptual issues 229
  12.5 Case study: Toronto heat islands 232
  12.6 Discussion and conclusion 238

Appendix Case study: climate-driven health hazards – natural disasters 247

13 SDG17, means of implementation: strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development 250
  13.1 Introduction 250
  13.2 What does SDG17 cover? What are the co-benefits between these areas and health? 252
  13.3 How have we performed on SDG17 during the COVID-19 pandemic? 260
  13.4 Conclusion 270
